MUCH EXCITED AND BEWILDERED

British Public Stunned by News of Chamberlain's Resignation.

CAME LIKE THUNDER-CLAP

Crisis One of Most Extraordinary in the History of the Government.

London, Sept. 18.—Consternation and excitement caused by the dramatic announcement of Joseph Chamberlain's resignation of the secretaryship for the colonies prevails among all classes in the United Kingdom, to the exclusion of every other topic.

The great majority of the public only learned the news from the morning papers and their astonishment in many cases was so great as to prevent the expression of any coherent opinion. The Pall Mall Gazette this afternoon aptly sums up the general feeling by describing the present crisis as the "most extraordinary in the whole history of constitutional government," adding that what will happen next no one can forecast with any degree of absolute certainty.

WILL FILL VACANCIES.

The Pall Mall Gazette states that Premier Balfour will fill up the vacancies and carry on the government until he meets parliament in 1904. Mr. Chamberlain, also, does not look for an immediate general election, expecting at least a twelve months propaganda before the electorate can decide upon his proposals. Other rumors are current, that Mr. Balfour is unable to find men to fill the vacancies and that he will be obliged to hand the king his own resignation. This, however, does not appear to be likely.

The Westminster Gazette and other papers forecast Lord Milner, the high commissioner in South Africa, succeeding to the colonial office and it is definitely announced that Lord Stanley, financial secretary to the war office, and probably James Lowther, deputy speaker, will be among those promoted to the cabinet, but the details of its reconstruction are not likely to be known until Mr. Balfour has seen the king.

MANY CANDIDATES.

Almost every paper has its own candidates for the various vacant offices, but few of the prophecies coincide. The attitude of the duke of Devonshire, lord president of the council, being unknown to the public, creates further uncertainty.

The Associated Press learns there is good reason to believe that the report that War Secretary Brodrick will be transferred to the India office is correct.

The new cabinet is expected to meet within a fortnight.

The Associated Press is informed that Lord Lansdowne will remain secretary for foreign affairs.

Lord Rothschild's statement yesterday to the Associated Press, however, can safely be taken as an indication that the duke intends to support Mr. Balfour at any rate until parliament meets.

The prediction that the markets would not be affected by the cabinet crisis has been fulfilled, indeed consols exhibited a firmer tone today.

From all parts of the United Kingdom and the empire editorial expression of opinion on the crisis are pouring in.

CAME AS A BOMBSHELL.

The government organs frankly admit that Mr. Chamberlain's withdrawal came as a bombshell. The liberal organs, though announcing the "wreck of the tory party," which is described as being "Hamlet, without the prince," nearly all agree in saying that Mr. Chamberlain's resignation does not mean a victory for free trade.

"Though the man has gone," says the Star, "his policy remains. This is Mr. Chamberlain's Elba. He has yet to meet his Waterloo." This is borne out by reports from Birmingham, where the powerful organization in favor of preferential tariffs is centered. There, though the resignation of the head and shoulders of the movement came as a great surprise, ceaseless activity prevails and it is announced that Mr. Chamberlain's previous arrangements for his campaign will all be carried out.

PORTFOLIO FOR THE SON.

The persistency with which it is rumored that Austen Chamberlain, the postmaster general, will succeed Mr. Ritchie as chancellor of the exchequer emphasizes the extraordinary nature of the relationship Mr. Balfour still maintains toward his colleagues. The liberal organs point out

COOLMAN CASE IS READY FOR JURY

Arguments in Columbia City Murder Trial Were Made Today.

(Special to The Sentinel.)

Columbia City, Sept. 18.—The trial of Claude Coolman for the murder of Frank Stallsmith in this county last April, is drawing to a close. The evidence was concluded at 4 o'clock Thursday afternoon and today was devoted to argument, two and one-half hours' time being allotted to each side of the case. Coolman's fate should be in the jury's hands by this evening.

The defendant was upon the witness stand the greater part of the day Thursday, and his recital did not vary materially from the published accounts of the shooting. His attorneys brought out strongly the fact that Stallsmith had struck and kicked the young man before the fatal shot was fired, one of the blows rendering Coolman so ill he could not stand.

Pearl Schrader, Coolman's sweetheart, was also upon the witness stand. She made no effort to conceal her love for the young fellow, and told of the vicissitudes under which their love making was conducted. A letter written by Coolman to the girl February 24 was introduced in evidence. It contained this threat:

"He (Stallsmith) wants to keep his fingers off of me; that's all there is about it. I'll see this thing through now or somebody will get hurt, so he might just as well keep still."

Eleven witnesses were called to testify as to Coolman's character. Five said he had a good reputation; five said it was bad, and one said it was "not good." Coolman became confused occasionally in his testimony. When not upon the witness stand he stares out of the window almost constantly, but is evidently listening closely to the proceedings.

MILITARY IGNORES CIVIC PROCESSES

Colorado Militia Officer to Fall Back on Plea of Martial Law.

Cripple Creek, Colo., Sept. 18.—Advocate McClelland made answer in the district court to the writs of habeas corpus issued by Judge Seeds in the case of McKinney and three other strike leaders who have been held as prisoners in the military guard house for more than a week. Adjutant-General Bell did not appear in court, but in his behalf a sworn statement was filed which declared that no prisoners were held in custody by him. Brig.-General John Chase, in his reply through counsel, assumed responsibility for the military arrests. The answer filed in behalf of Gen. Chase was largely based upon the recent decision of the supreme court of Pennsylvania in a case growing out of the anthracite coal strike of last year and known as the Wadsworth case. A private in the National guard named Wadsworth, acting under orders from his superior officer, shot and killed a striker. He was prosecuted in the criminal courts for murder and the supreme court exonerated him from responsibility for the killing. The court held that the order ordering the troops out to the strike district where disorder prevailed was a declaration of qualified martial law.

MRS. FANNIE DUNFEE DEAD.

Mrs. Fannie Dunfee, who for several years resided near Huntertown, this county, died Monday evening at the home of her daughter, Mrs. W. S. Waters, near Corunna. Mrs. Dunfee was the widow of the late Elijah Dunfee, and was 73 years of age. She was born in Starke county, Ohio, and came to Allen county, Indiana, locating near Huntertown, about 1880. Four years ago the family removed to Ashley, DeKalb county, where the husband died in February, 1902. The surviving children include A. F. Dunfee, of Wabash; Mrs. W. S. Waters, Corunna; Mrs. John Campbell, of Ari, and Mrs. Preston, of Guthrie, Okla. Mrs. Dunfee had been a member of the M. E. church for twenty-six years. Funeral services were held on Thursday, the interment occurring in a cemetery one mile west of Hudson.

Miss Ruby Wright has returned home to Kendallville after a visit with Miss Anna Conklin.

Miss Bessie Kahoe, of Anderson, Ind., is the guest of her sister, Mrs. E. J. Engle, of 316 Hendricks street.

THE TURK SLAYS WITHOUT MERCY

All Christian Folk, Men, Women and Children, are Slain in Kastoria.

CITY PUT TO THE TORCH

Correspondent Writes That Turkish Atrocities are Underestimated.

Sofia, Bulgaria, Sept. 18.—Further reports from Kastoria say the city is burning and that the massacre of its population (estimated to have numbered 10,000 persons), was indescribably terrible. The Turks slaughtered, indiscriminately, Bulgarians and Greeks, men, women and children.

A Turkish war balloon is reported to have been seen hovering for the last three days close to the Bulgarian frontier, in the vicinity of Haskovo.

A severe fight has occurred at Ulavitza, in the mountains of Krtovo, between 2,000 Turks and 80 insurgents. It continued for eight hours. The insurgents used bombs with deadly effect. About one hundred Turks are reported to have been killed and many wounded. The insurgents had two men wounded.

A fight is also reported to have taken place at Rupel Paso, near Seres, where insurgent bands recently surrounded and annihilated a whole company of Turks. The bands then fled to the mountains. Three battalions of Turkish troops have been sent from Salonica to pursue them. A small body of peasant refugees, near Presba, who were starving in the mountains, started to seek for food. At Nakaletz, they were met by Turkish soldiers, who killed them all and horribly mutilated two women.

ATROCITIES UNDERESTIMATED.

London, Sept. 18.—The Westminster Gazette says a well-known London journalist cables from Belgrade as follows:

"Starting with pro-Turkish sympathies, I have found overwhelming evidence convincingly proving that the Turkish atrocities are rather underestimated in the reports of British consuls, bankers and unprejudiced people. Foreign Minister Tzokoff tells me he knows cases of starving women in the forests killing two of their own children to preserve the third. The forest wanderers will all perish of cold within two months."

"Europe," adds the Westminster Gazette, dealing with the Kastoria reports, "is bound at once to intervene whether by conference or as a concert."

GERMAN VIEW OF SITUATION.

Berlin, Sept. 18.—The German government holds in view four points in the Balkan situation:

First. Does Russia regard that the time for the break-up of European Turkey has arrived? The German ministers have been unable to penetrate Russia's ultimate intentions and note with displeasure the concerted attacks of the St. Petersburg papers on Germany, which is described as being in the background and taking pleasure in the extirpation of the Slavs in European Turkey.

Second. If Prince Ferdinand is persuaded that his throne is dependent on a war with Turkey, then war is certain. Every effort should be made to tranquilize Prince Ferdinand's mind.

Third. The meetings of the sovereigns, attended by their foreign ministers, are expected to clear up the obscurities of the situation and enable German statesmen to forecast the future. The emperors of Germany and Austria meet at Vienna today. The czar meets Emperor Francis Joseph September 29 and will then visit the king of Italy. Events are expected to remain quiet until after the 29th, unless Bulgaria refuses to wait.

Fourth. The project for an Austrian-Russian joint occupation of Macedonia has been wholly abandoned and there is not the least likelihood of a renewal of the proposition.

Despite the fact that the Balkan situation has grown worse, Turkish funds rose again on the bourse today.

TRANS-CONTINENTAL TRIP.

New York, Sept. 18.—L. L. Whitman, of San Francisco, who last night completed an automobile trip from that city to New York, called on Mayor Low today and presented a letter from the mayor of San Francisco. Mayor Low congratulated Mr. Whitman on the completion of his trip.

FINDS HER MOTHER AFTER THIRTY YEARS

Mrs. Ruth Bryan Hears from Relative Long Presumed to Be Dead.

After a separation of more than thirty years, Mrs. Ruth Bryan, who resides at 2211 Lafayette street, has discovered that her mother, whom she had presumed to be dead, is yet living. More than this, the mother has written to the daughter, inclosing her photograph. Mrs. Bryan expects to visit the aged mother within a short time and the reunion will be a most happy one.

The story is tinged with a romance as strange and fascinating as that of the story writers. While Mrs. Bryan was but a mere babe, living with her parents in Illinois, her father died. A few years later the mother remarried, her second husband being a man of the name of Parr. The babe, too young to know her real father, took that of her stepfather and was known as Ruth Parr.

The stepfather proved unkind to the little daughter and finally, more than thirty years ago, the girl was placed in the care of relatives in eastern Ohio. After a time, instead of caring for her, those relatives gave her into the charge of strangers, in whose family she was reared. The mother, still residing in Illinois, made, it is said, repeated attempts to learn of her child, but could get no word from relatives, who had meantime removed to another section.

In this manner the daughter grew to womanhood, knowing little of her parents from whom she had been separated at so tender an age and totally unaware of their address. Her home was at Hanna Station, Ohio. Shortly after her marriage at Delphos twenty-three years ago the daughter, now Mrs. Bryan, removed to Fort Wayne, where she has since resided. In all the thirty years that had passed since her separation from her mother she had heard nothing concerning her and fully believed that she had died somewhere in Illinois.

It was but a short time ago that she accidentally learned of the whereabouts of an uncle—a brother of her mother's. To him she appealed for information concerning the mother and was overjoyed to learn that she was yet alive. The address given was "Mrs. Rachel Parr, Cooksville, Ill." Mrs. Bryan communicated at once with that address and in reply comes a long letter from the aged mother to the daughter who passed from her sight more than thirty years ago and of whose subsequent whereabouts she had never been able to learn. With the letter was a photograph of the aged woman. The daughter's delight can be better imagined than described.

Mrs. Bryan will shortly leave for Cooksville for a visit. Then will follow the reunion of the mother and daughter after thirty years of separation. The daughter, but a mere child, when last seen by her mother, can hardly be recognized in feature by the mother. It is also certain that the mother of today will present but little resemblance to the portrait which from years ago lingers in the mind of the daughter. Regardless of this, however, their happiness will be complete and the reunion will mark the felicitous termination of a most unusual romance in real life.

RUMOR THAT KING PETER IS SLAIN

Paris Hears That New Ruler of Servia Has Been Assassinated at Belgrade.

IT CANNOT BE CONFIRMED

London and Berlin Disposed to Regard Story as a Mere Bourse Rumor.

Paris, Sept. 18.—An unconfirmed rumor was circulated on the bourse here today that King Peter, of Servia had been assassinated.

Servian bonds fell 1 franc 70 centimes.

Official advices from Belgrade indicate that King Peter's recent retirement of Col. Nichtich from the important position of departmental chief in the ministry for war is the beginning of a movement looking to the separation of King Peter from the conspirators who took part in the assassination of King Alexander and Queen Draga. Nichtich, the leader of the conspiracy, was conspicuously honored and is now degraded as the result of widespread indignation at the favor shown by the king towards the participants in the assassination.

The Temps' Belgrade correspondent says the election for members of the skupshtina next Monday promise to result in a majority favorable to the separation of the king from the regicides.

REGARDED AS BOURSE RUMOR.

London, Sept. 18.—While definite information is still lacking, the rumor in Paris of the assassination of the Servian king is regarded here as a bourse canard.

DISCREDITED IN BERLIN.

Berlin, Sept. 18.—The foreign office here discredits the rumor that King Peter, of Servia, has been murdered, though it has no direct information on the subject. The officials believe the report originated in a bourse canard.

A telephone inquiry made at Vienna shows that a similar report was current there, but that there is no confirmation of the rumor.

TWO EMPERORS MEET.

Vienna, Sept. 18.—Emperor William arrived here today from Belleye, Hungary, in the vicinity of which place he has been stag hunting with Archduke Frederick.

Emperor Francis Joseph, wearing the uniform of a German field marshal, met Emperor William at the railroad station. The German emperor wore the uniform of an Austrian cavalry general. He was accompanied by Chancellor Von Buelow. The monarchs cordially kissed each other three times and then shook hands warmly. After an inspection of the guard of honor the emperors drove through the crowded and decorated streets to the Hofburg. They were accorded an enthusiastic reception all the way to the palace. The route was lined by troops.

WILL SUE UNCLE SAM.

Washington, Sept. 18.—The Chinese government will make a claim against the government of the United States on account of injuries inflicted by residents of Tonopah, Nev., upon the Chinese residents of that place last Wednesday. The Chinese minister has telegraphed the Chinese consul general at San Francisco to send him as many affidavits as he can secure showing the names of the persons injured and the nature of their injuries, as well as any property loss they might have suffered. These affidavits will be used as the basis of the claim against this government.

CURTAILS OPERATIONS.

Sault Ste Marie, Sept. 18.—Pending the outcome of the financial difficulties in which the Consolidated Lake Superior company is now involved President Shields has issued orders to temporarily close down all of the operations of the company, except the street railway system on both sides of the river, the ferry system and the Tagonia Light and Power company, of the Canadian Soo.

This step is taken, it is announced, because the funds of the company are exhausted and Mr. Shields does not want to incur further liabilities until it is known where the money with which to meet them is coming from.

Henry Hickox, employed at the Electric works, had the end of his left thumb crushed off in some machinery yesterday.

PRESIDENT BACK TO SAGAMORE HILL

Returns from Antietam Battlefield and Receives Several Visitors.

Oyster Bay, L. I., Sept. 18.—President Roosevelt's party arrived here on the naval yacht Sylph at 10:30 o'clock, the run from New York having consumed nearly three hours. The president and party went aboard the naval tug Narkeeta at Jersey City soon after 7 o'clock this morning. They were conveyed to the New York yacht club landing, where they went aboard the Sylph. The party breakfasted on the vessel and soon after started for Oyster Bay.

After returning from his Antietam trip today President Roosevelt received several callers. Among them were John W. Suetterle, president of the National Saengerfest, who presented an invitation to the president to attend the saengerfest to be held in Milwaukee next July. The president could not give Mr. Suetterle a definite answer today, but indicated that he probably would not be able to accept the invitation. The presidential campaign will be in progress at that time and the president's attention likely will be absorbed in that work.

J. O. Thompson, of Alabama, had a conference with the president concerning some federal appointments which shortly will be made in Alabama. No information concerning the conference was made public.

Gov. William H. Hunt, of Porto Rico, called to pay his respects to the president before returning to his post. He will sail for San Juan in a few days.

J. H. C. Luce, of Boston, Mass., a personal friend of the president, was his guest at luncheon.

QUIZ FINLAY AS TO THE BOUNDARY

American Commissioners Put Canadian Commissioner on the Rack.

London, Sept. 18.—When the Alaskan boundary commission resumed its sessions today Attorney General Findlay was subjected by War Secretary Root and Senators Lodge and Turner to a fire of questions in connection with his attempt to show that the boundary should run from the head of Portland canal directly westward to the point where the mountains, claimed by the Canadians as the boundary, intersect the 59th parallel of latitude. The contention of the United States boundary continues up to Bear river valley from the head of Portland canal to the 56th parallel. In this connection Mr. Root called the attorney general's attention to the fact that Vancouver referred to Marsley Pass as the head of the canal and asked if it was not natural to suppose that the signatories of the treaty intended the line to follow this pass to the 56th degree. The attorney general replied that the line under the treaty could not run farther than the water canal and from that point must seek the mountains at the 56th parallel.

Senator Lodge suggested that this would mean that the line must cross the mountains to reach those points described in the Canadian case, which the attorney general evaded touching upon.

The attorney general passed during the afternoon to the discussion of the location of the line from the 56th parallel to Mt. St. Elias, asserting that if the contention of the United States that the boundary should go around the heads of inlets was admitted, then, correspondingly, Canada should gain by the tribunal deciding that the line should follow ten marine leagues from the shores of peninsulas.

Judge John M. Dickinson, of American counsel, said the United States was contending only for the heads of inlets and not beyond, the attorney general having raised the point that the American claim for tidewater as the boundary might put the boundary far into the interior of Canada.

SUING POOL-ROOM KEEPER.

Indianapolis, Sept. 18.—Harry M. Yaple, a young dental student in this city, has commenced suit against William Tron, a well known saloonkeeper, sporting man and politician, for recovery of $619 alleged to have been lost in Tron's pool-room on Illinois street. Yaple says he lost the money betting on the grand circuit races His home is Mendon, Mich., and he has a brother, Carl Yaple, who is a lawyer in Fort Wayne.

Attorneys Compile Statement from Defunct Ellison Bank at Lagrange.

DEPOSITS AT HIGH FIGURE

Will File Petition in Bankruptcy and P. G. Keegan May be Receiver.

Examination into the affairs of the private banking houses of Rollin Ellison at Lagrange and Topeka, which closed their doors on Wednesday morning, make it appear that approximately Mr. Ellison's indebtedness is $313,514.17. To offset this there are assets of the estimated value of $246,895.74.

These figures are the result of the examination by Mr. Ellison and his attorneys, who have been occupied continuously since the closing of the doors of the banks in compiling a statement of the assets and liabilities in order to determine what method of further procedure to be followed. Attorney H. G. Keegan and Hon. T. E. Ellison returned at noon today from Lagrange, having completed their tabulation of the bank's accounts this morning.

GIVE OUT THE FIGURES.

This afternoon the attorneys gave to The Sentinel the following summary of the assets and liabilities of the banker, which shows that upon the face of the estimates, the assets will lack something over $166,000 of covering the indebtedness:

ASSETS.

Real estate	$ 31,675 00
Cash	4,097 37
Bills and notes	85,909 33
Household goods	300 00
Horses, etc	2,085 00
Wagons and implements	625 00
Judgments	1,590 00
Other personal claims.	3,815 00
Accounts	4,170 00

Total assets	$246,895 74

LIABILITIES.

Taxes	$ 376 96
—Secured Claims.—	
Fort Wayne Trust Co.	$ 35,000 00
Sol Rose, Lagrange	5,000 00
National Bank, Lagrange	7,500 00
Charles Nicholas	3,000 00
Ida Rose	2,500 00
Topeka Bank check deposits	5,285 71
Topeka certificates of deposits	36,137 96
Lagrange check deposits	79,101 92
Lagrange certificates of deposit	129,260 62
Due other banks	371 00
Total indebtedness	$313,514 17

WILL FILE PETITION.

It was stated by the attorneys that Mr. Ellison would this afternoon file in the United States court in Fort Wayne a petition in voluntary bankruptcy. Under the usual form of procedure there will be a temporary receiver appointed until there can be held a regular meeting of the creditors of the defunct banks in order to elect a trustee in bankruptcy.

It was learned today that something like $60,000 of the deposit indebtedness of the two banks is owed to members of the banker's family—his mother and his sisters. It is stated also that the assets listed above are believed to be practically all worth their face value, a number of loans of questionable worth having been omitted from the calculations in order to arrive as closely as possible to a statement of the actual amount that might be expected to be realized from the estate.

Friends of Mr. Ellison are confident that the Kansas securities, the failure to realize upon which is generally credited with being the immediate cause of the bank's suspension, will eventually prove to be worth their face value.

This morning at Lagrange there was a conference between Mr. Ellison and some of his heavier creditors concerning the method to be pursued, and a number of them signed a petition to the federal court for the appointment of Attorney H. G. Keegan, of this city, as temporary receiver under the bankruptcy proceedings until a trustee can be elected by the creditors.

They Cheered Themselves Hoarse.

At Beery's show last night, Prof. Beery had a kicker in the ring that sliced the air in such fine slices with its heels that the slices had difficulty in getting together—they united with a clap like young thunder, you might say. Then the tin pans—how they did rattle and fly "every which way." This horse didn't get through kicking last night. He will have about a car load of pans hooked on tonight, and the people will see more fun yet. A man from Napoleon, O., hearing of Prof. Beery's presence in Fort Wayne, and having a famous runaway horse, a fine native-bred animal, shipped it over, and this horse is on the program tonight. There will be no end to the excitement tonight, at least while the exhibition is in progress—the show will be fascinating in the extreme. Everybody and everybody's wife, sons and daughters should be there. Only 15 cents. Under tent, corner Main and Ewing streets.

FORT WAYNE LOST ONLY ONE SERIES

Evansville Only Team in the League That Won the Majority from Local Team

The following table compiled by President Mautner from the official records kept by President Bement shows that Fort Wayne has one more game to its credit than is given in the official standing as published yesterday. It must be understood, however, that this is not official and there is a possibility that errors may have crept in in compiling and transcribing it.

Evansville is the only team in the league that won the majority of the games played with Fort Wayne. Eighteen were played by the two teams and Evansville won eleven. Wheeling comes next with an even break. South Bend and Fort Wayne played out the entire series of twenty games and the latter won thirteen of the number. Dayton is the only team in the league that played out the entire schedule of 140 games. There will in all probability be some changes when the official revision is made at the meeting here Oct. 3.

LOST FIRST GAME.

Fort Wayne lost the first of the post season games at Crawfordsville yesterday to South Bend by a score of 6 to 4. The weather was cold and the attendance was smaller than might have been expected although a fair crowd was out. This is not one of the regular series arranged between the teams.

TEAM HERE TODAY.

The Fort Wayne team passed through here today remaining for a short time before taking a train for Columbia City, where a game will be played with the Reds this afternoon. Tonight the men will return to Fort Wayne for the first of the South Bend series at League park tomorrow afternoon.

BIG SHOOT IS ON.

A shoot for the state live-bird championship is being held at the Trautman range this afternoon under the auspices of the Corner Rod and Gun club. Max Witzigreuter, of this city, is defending the title against Hugh M. Clark, of Peru, for the third time this season and a big crowd of enthusiasts went out to the range to witness the event. The shoot began at 2 o'clock. The first event is fifty birds, and in the event of Clark winning, he will be obliged to defend the title against Witz tomorrow, as is customary in championship events.

IN NORTHERN INDIANA.

William Hyser, a well known citizen near Roanoke, died Thursday morning.

Smallpox has appeared in the family of Tony Binkley at Larwill, Whitley county.

The little child of Mr. and Mrs. Frank Schofield, of Valparaiso, drank coal oil and died.

John Stockman, long a prominent resident of Marshall county, is dead at his home east of Plymouth.

School trustees at Winamac have declined to permit of the transfer of negro pupils from the township schools to the city.

Gabriel Godfroy, the last lineal descendant Miami Indian chief, has just celebrated his seventy-third anniversary at his home near Peru.

Within an hour after Judge Erwin, at Decatur, delivered his charge to the grand jury every slot machine in that city had disappeared from sight.

James Bachman and his son-in-law, Robert Calloway, of Plymouth, got into a bitter quarrel over Calloway's child and a fight followed. A knife, a revolver and at least two pairs of fists participated in the melee and the aged man got very much the worst of the disturbance.

Mrs. Melissa J. Woodruff wants a divorce from Thomas M. Woodruff at Decatur. They were married thirty years ago. Drunkenness and abuse are alleged by the wife as cause for the separation.

The plant of the National Rolling Mill company at Hartford City has been compelled to shut down because of an accident to the boilers and the difficulty in securing common labor in the muck department.

Mrs. Cale Mott, of Waterloo, was a schoolmate of the late President McKinley and carries upon her forehead a scar which was made by young McKinley accidentally hitting her with a base ball bat while at play nearly fifty years ago.

Citizens of Silver Lake, Kosciusko county, are mystified over a strange phenomenon which has been discovered just east of the town. The earth at one point there makes a strange cracking sound when anyone treads upon it and sometimes the noise very closely resembles thunder in the distance.

Arthur Null, of Ligonier, while intoxicated indulged in threats against the life of his wife. He was sent to jail for thirty days. The wife declined to appear against him or he would probably have drawn a term in the penitentiary. The evidence indicated that he had actually attempted to put his threat into execution.

Manley Brown, of Jefferson township, Adams county, is dead as the result of an accident at a barn-raising on Wednesday. A gin-pole forty feet in height, which was being used to draw up the heavy timbers, fell, catching Brown beneath it. The man's head and shoulders were frightfully crushed, but he lived seven hours after the accident. One of the stakes to which was tied a guy-rope supporting the pole pulled out of the ground, allowing the pole to fall.

Carrie Nation, the prohibition advocate, visited Huntington this week and upon the street met Jack Norton and Mike Finn, saloonkeepers. She gave them her opinion of the saloon business, and Finn, professing penitence, told Mrs. Nation that if she would come to his place she could smash everything in it. Finn, who is famed as a wag, led her not to his own place, but to the Norton saloon. Mrs. Nation started to empty the liquors upon the floor, when the real owner, who could not see any further fun in the joke, stopped the proceeding. Then Mrs. Nation turned upon Finn and expressed her opinion of the joke in forceful language.

AGED ACTRESS DYING.

San Francisco, Cal., Sept. 18.—Mrs. Elizabeth Saunders, the old actress so well known to theater-goers of decades gone by, is passing quietly away at her home in this city, her death being only the matter of a few days, according to the statement of the attending physician. Mrs. Saunders first appeared before the public fifty years ago. Her name off the stage was Anderson and she is a cousin of Joseph Jefferson and of William Warren, the character actor. Her rendition of old women's parts was considered without a peer.

DELEGATES WERE CHOSEN.

Miss Josephine Shatzer and Miss Grace Hogan were elected to represent the Visiting Nurse league at the state conference of charities and corrections in this city next week, at a meeting of the league in room 8, city hall, yesterday. The reports showed that 387 calls had been made during the month, and an itemized statement of medicines and supplies given, etc., was given. The league will have a social meeting at the home of Mrs. J. B. Fellens on October 8.

SOUTH BEND THUS FIGURES THE RACE

Not Willing to Concede Pennant to Fort Wayne Under Any Circumstances.

The following comment on the pennant is from the South Bend Tribune:

"The season of the Central base ball league came to an end yesterday with Fort Wayne leading with an average of .645. South Bend by defeating Terre Haute in the last game of the year, finished in second place with an average of .638. Fort Wayne and Evansville were scheduled for two games, but rain prevented the contests and South Bend's chance to take the pennant without recourse to disputed contests was lost.

Fort Wayne, however, has not yet won the pennant, although President Mautner has filed his claim for the flag. That team must now convince the board of directors of the Central league that there is poor cause for them to consider four protested games. In doing this Fort Wayne will have her hands full. The Tribune has reliable information to the effect that at least one, if not two, of the disputed contests will be decided against the Railroaders, and such being the case, Fort Wayne will have to meet South Bend in a special series.

"If the Grand Rapids mix-up is decided in favor of the Orphans, Fort Wayne and South Bend will be tie at .638 and if the Terre Haute protest is upheld South Bend will get the bunting as Fort Wayne's average will be two points less than that of the Greens. To the credit of the Greens it can be said that South Bend has not been mixed up in a single protested game and so far as Fort Wayne is concerned, the hands of the local players are clean."

The South Bend Times figures out thus:

"President Bement's statement that the figures may have to be revised, leads to the suggestion of an entanglement that requires straightening out in the matter of Fort Wayne's figures. Mautner now claims 91 games won and 47 lost, while the Fort Wayne papers can only nerve themselves to claim 89 games won and 48 lost. Mautner's figures show 138 games played, which, with the two scheduled for Evansville yesterday, would make 140 games, or the season's allotment. The Fort Wayne papers figure a total of 137 games, three less than the schedule, yet they still claim the Terre Haute game President Bement ruled should be played over, but which ruling Mautner refused to accept. One game is thus unaccounted for. President Bement's figures, as given The Times yesterday, credited Fort Wayne with 138 games, 89 won and 49 lost, which, with the Terre Haute game he ordered played over, would total 139 games, so that yesterday's doubleheader at Evansville would have been an impossibility.

"The stand that South Bend will take before the board of directors is that in Mautner's refusal to play over the Terre Haute game, he forfeited it to the Hottentots, which, according to Bement's figures, would make Fort Wayne's standing 139 games played, 89 won and 50 lost, percentage .641. The second protest will be that Fort Wayne is not entitled to the game won by Grand Rapids 3 to 1 in six innings and which Bement ordered played over because the umpires failed to call the game after the rain made further playing impossible. It is said that Bement has stated that Mautner's report to him was that the score was a tie, 1 and 1, but this seems impossible from the fact that the president not only had the newspaper reports, but the official score to act by.

"In this protest South Bend will contend that Grand Rapids was entitled to the game, and therefore Fort Wayne is not entitled to the forfeit declared because of Warrender's refusal to play the game over. This would reduce Fort Wayne's won games and increase the lost column, making its rightful percentage 139 played, 88 won, 51 lost, .633, as against South Bend 138 played, 88 won, 50 lost, percentage .637."

Rheumatism

Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood, and the Uric Acid poison is neutralized, the sluggish circulation stimulated and quickened, and soon the system is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.

S. S. S. is a harmless vegetable remedy, unequalled as a blood purifier and an invigorating, pleasant tonic. Book on Rheumatism will be mailed free.

About a year ago I was attacked by acute rheumatism in my shoulders, arms and legs below the knee. I could not raise my arm to comb my hair. Doctors prescribed for me for over two months without giving me any relief. I saw S. S. S. advertised and decided to try it. Immediately I commenced its use I felt better, and remarked to mother that I was glad I had at last found some relief. I continued its use and am entirely well. I will always feel deeply interested in the success of S. S. S. since it did me so much good.

MUCH EXCITED AND BEWILDERED

(Continued From Page 1.)

the righteousness of any supposed change in heart on the part of a government which includes Mr. Chamberlain's son, who has been almost as active as his father in organizing the preferential tariff. Balfour's frank declaration, in his letter, accepting the colonial secretary's resignation, that he shared Mr. Chamberlain's ideas of a closer fiscal union with the colonies also creates doubt as to how even moderate free traders, such as the duke of Devonshire, can remain under Mr. Balfour's guidance.

The criticism of the small effect upon the government policy caused by Mr. Chamberlain's withdrawal and of the retention of his son is not confined to the opposition. The St. James Gazette, which warmly supports Mr. Chamberlain's program, declares that the result is what the unionist party will face the electors disunited and open to all the attacks of the free fooders, as it will be perfectly apparent to the electors that the return of Mr. Balfour involves sooner or later the return of Mr. Chamberlain and the triumph of his policy."

UNIONIST PARTY WRECKED.

Philadelphia, Sept. 18.—Hon. Arthur Priestley, liberal member of parliament for Grantham, Lincolnshire, who is in this city with the Kent county cricket team, was interviewed today concerning the resignation or three British cabinet ministers. Mr. Priestley expressed the opinion that Mr. Chamberlain has disrupted the union party; that Premier Balfour must resign and that a liberal victory would follow, with the formation of a new cabinet, probably by Lord Spencer.

Mr. Priestley said:

"If for no other reason than that Mr. Balfour's policies might act as a check upon the good will and interests which exist and are growing between England and this country, and which mutual esteem and understanding is to play an important part in the world's affairs, I would oppose them in parliament.

"Mr. Chamberlain, in my opinion, has disrupted the union party more seriously than the conservative party was disrupted in 1886 by the home rule question. The financial men of the union party, such as Hicks-Beach and Goschen, are opposed to the Balfour-Chamberlain policy, as are the energetic, able young men like Lord Hugh Cecil.

"It is my conviction that England will never adopt a taxation of food policy or a retaliatory system of tariff duties without first suffering from a period of deep industrial depression. Then, but not until then, she may lend a willing ear. At this time the combined liberal party is opposed to any comprehensive system of protection.

"If relief is wanted from the commerical conditions prevailing in our country, we must seek it, I think, in a higher and more perfect education in all branches. We must employ, where necessary, the business methods of other countries. We must reduce the dead weight resting on our commercial interests by reducing royalties and similar restrictions, and generally infuse into our commercial life a more strenuous spirit.

"We must meet the world's competition along lines of wider, deeper knowledge and greater energy and not by instituting a system of tariffs that will increase the cost of living, proportionately reduce the standard of comfort and increase monopolies detrimental to the national welfare."

USING BEAVERS AS SHIELD TO SOME ONE

Startling Charge Made by Attorney for Man Indicted for Postal Frauds.

New York, Sept. 18.—At the examination of George W. Beavers, the indicted postoffice official charged with conspiracy with the Brandt Dent Manufacturing company to defraud the government, which was resumed today, Commissioner Hitchcock announced that he had decided to overrule the motion made by the defense at the previous hearing to dismiss the proceedings because of the invalidity of the indictment. The defense contended that time the indictment charged three separate and distinct offenses under one section of the federal statutes instead of one, as provided by law. He also repeated his rulings that the properly certified copy of the indictment returned in Brooklyn was sufficient evidence to make out a case of probable, and to warrant the return of the accused, properly identified, to the district where in the indictment was retuned.

It developed in the course of the examination and was admitted upon the record by District Attorney Burnett that subpoenaes had been served by the defense upon District Attorney Youngs in Brooklyn and his stenographer and a subpoena for the production of certain papers upon Postmaster General Payne, the defense stating that it wanted the government to make out its case before the district commissioner in New York in order that the defense might prove that Mr. Beavers had nothing whatever to do with the making of the contract between the government and the Brandt-Dent company. The subpoenaes had been ignored.

"For the first time on record in this district," said Mr. Steurs, attorney for Beavers, "the government seeks to have this accused sent to Brooklyn without the preliminary examination that has been accorded every defendant arraigned for extradition in a quarter of a century.

"We want to know whom the government seeks to shield by this indictment. We contend that if permitted to go into this case here that we will prove that there is not only a lack of probable cause to believe that a crime has been committed, but so far as Beavers is concerned, it is a case of absolute innocence and we hope to prove it. But for some reason the government seeks to suppress this evidence."

LACROSSE IN PERIL OF THE RIVER'S RISE

Mississippi, Surcharged by Heavy Rains, is Booming Over the Banks.

La Crosse, Wis., Sept. 18.—The worst flood experienced in this portion of the Mississippi valley for years is submerging thousands of acres of farm lands along the river, sweeping away stacks of hay and grain, drowning live stock in fields and doing inestimable damage. The flood has reached La Crosse and in the lower side of the city families have been forced to move out of their homes. This morning the river had overflowed the Chicago, Milwaukee and St. Paul tracks on the levee and goods were being moved out of the lower floors of a long row of wholesale houses which it is expected the water will enter by tonight. The river is still rising half an inch per hour and at noon today the stage was 12.5, a half foot above the danger point.

Pettibone park, the handsome new $150,000 pleasure ground, is entirely submerged.

The mill dam and part of the mill at Mishamokwa are washed away; at Mondovo both mill dams are out and much live stock drowned.

Communication with the rural districts in this vicinity is entirely cut off owing to innumerable bridges being washed out. Three saw mills in this city have been forced to stop work and thousands of dollars' worth of lumber and wood piled up in the yards is in danger of being washed away.

The local weather observer predicts that the river will rise nearly a foot more at this point.

DECLINE OF A BUSY CITY.

"Virginia City, Nevada, has just about reached the limit of going down hill," said George W. Sproule, clerk of the United States court. "The authorities have abolished the street lights, discharged the solitary night watchman and reduced the fire department to two men. Listen to this," continued Mr. Sproule, as he picked up a Nevada paper and read: "'The Virginia Enterprise says that owing to the shortness of funds in the Storey county treasury the commissioners have found it necessary to cut off all expenses possible. After the first of next month there will be no more street lights on the old Comstock. The fire department is to be reduced to two men and the one policeman now doing duty at night will be dispensed with. Poor old Virginia! It seems a pity that a place once the liveliest in the world should go so completely to the dogs that there is nothing left worth stealing and the few people left there must either stay at home nights or carry lanterns.'

"I lived in Virginia City nearly thirty years ago," said Mr. Sproule, "and at that time the town had a population of 40,000 persons. It doesn't seem possible that it should have reached its present state of dilapidation. In those days it was the liveliest place in the west, bar none.

"There are hundreds of persons now living in Montana who once lived in Virginia City, and none of them but will remember the old town in its palmy days, and to think that now there isn't even a policeman on duty there"—Helena Record.

STEGERS AIRING FAMILY AFFAIRS

Making a Bitter Fight in Divorce Proceedings—The Court News.

John and Margaret Steger, after a married life continuing over a period of nineteen years, are making a bitter fight for divorce in the superior court that has occupied the last two days of the session and promises to consume the greater part of the time tomorrow.

She filed complaint in which she accused him of being an habitual drunkard, of attempting to kill her with a revolver, of chasing the family out of the house, and other cruel acts, and he replied in a cross-complaint alleging that her temper is far from angelic and that at one time she threatened to explore his heart with a butcher knife. Two of the children of the couple, together with a number of neighbors, are interested spectators and in their presence the husband had an inning this morning.

He said that for the last several years he has been invariably greeted by his wife upon entering his home with, "There comes the devil," after which she has removed herself from his presence and refused to cook his meals. As to the charge of drunkenness, he said that the only time he ever overstepped the bounds of sobriety was upon one occasion when he was suffering from a ringing in his head, and acting upon the advice of one of his wife's friends, conveyed to him through her, he purchased and consumed a half pint of whisky. This, he admitted, made him forget the ringing in his head.

He also said that for several years past he has been forced to do his own washing and that he has put in his Sundays in this interesting pastime. He grew melodramatic when he recited the butcher knife episode. "I came into the kitchen one morning and she said as usual, 'There comes the devil,' and grabbed up the knife and said she would cut my heart out. I just pulled open my vest and said, 'There it is, woman; strike!' as I was willing to die if she wanted to kill me." He was on the stand all afternoon.

ASKS SEPARATION.

Elizabeth Pohlman filed in the superior court this afternoon a complaint against Christian Pohlman, in which she asks a temporary separation. She filed a suit for divorce some time since and Judge Heaton refused to grant a decree and persuaded them to live together. She alleges that he published in a German paper a warning to all persons not to extend her credit and in the publication made the statement she had a wheel in her head and a screw loose. She says he is a miser and will not purchase her sufficient food and that the quantity he purchases is of a very inferior quality.

this afternoon of the assets and liabilities of the Ellison banks caused considerable consternation when the wide discrepancy was noted between the two columns of figures. While there has been some alarm since the bank closed its doors, there has been quite a general belief that the assets would prove sufficient to finally pay off dollar for dollar. When the statement today made it evident that this would be impossible, there was considerable excitement upon the streets, and feeling in some quarters ran very high. The figures, both as to the amount of deposits and other indebtedness, ran very much higher than it was generally supposed they would reach.

The cold wave did not arrive until several days overdue, but it really did arrive and had lost nothing in transit.

With Mr. Jerome whacking away at Mr. Low and Tammany standing ready to profit by the division, the reform cause in New York stands a good chance to strike a slippery piece of track.

The massacre of half a dozen whites by Apaches in Arizona would stir the people of this country greatly. The butchery of ten thousand Christians in Macedonia by Turks simply increases the curiosity to know if Bulgarian will finally go to war with Turkey.

Oxnard, the beet-sugar magnate, is said by a California newspaper to be unknown in politics. That may be true enough, but Oxnard knows a lot of fellows in the United States senate and elsewhere who are known in politics, and that has always been sufficient for his purposes.

Sir Thomas Lipton has sold Shamrocks I. and II., but will keep the last boat he brought over. Her performances were not of a sort to make her sell readily without a stiff advertising campaign. It may be that Sir Thomas, who is noted for being wholly "on the square," has no wish to embark in the gold-brick business.

In his charge to the Adams county special grand jury Judge Irwin called attention to numerous forms and manifestations of lawlessness in the jury's jurisdiction and urged a thorough probing of it all. Besides a murder case invested with circumstances of unusual brutality, the jury has before it for investigation the dynamiting of Editor Rohrer's home at Berne. Something interesting no less than salutary for the community should be brought forth by the inquiry. From the scope and vigor of Judge Irwin's charge to the special grand jury there is evidently something rotten in Adams and a shakedown could not be better timed.

Joseph Chamberlain has actually precipitated Britain's cabinet crisis by retiring. His course had been the subject of repeated rumor and no end of political gossip and prophesy, yet now that it has come about the British public stands somewhat aghast and bewildered. It has been many a year since Britons have seen such a turmoil of politics and confusion of policies as that upon which they are now entering. Dissolution of parliament at no very distant day is inevitable, and when the questions now uppermost shall have been submitted to an election little or nothing may prove to be settled. Threatened disturbance of the long settled fiscal policy of the United Kingdom makes a liberal triumph a possibility, though but a bare one, for in its present chaotic state the liberal party is little more than an intricately differentiated difference. Still it may go in for a short lease of power on the tide of disturbed public feeling, to go out again when the "tide turns again home." The retirement of Mr. Chamberlain takes out of the cabinet the one strong, masterful and persistent personality it has possessed since Lord Salisbury quit public life. Premier Balfour means to patch up his shattered government and shift along until some critical turn of events forces the issue up to the people. Chamberlain will make a fine fight for his preferential tariff policy and he is apt to make a strong showing. He is not a man of the sort to surrender a belief and he believes the solidarity of the empire demands the thing he proposes. He is an imperialist of imperialists, and as he clung with bulldog tenacity to the policy that the strength of the empire required the extirpation of the Boer republics, so will he cling to his scheme of preferential tariff establishments with the colonies. While it hits hard home to British devotion to ancient rule and establishment of things, the dominating note of triumphant imperialism will appeal to a national sentiment that once deeply stirred may be carried into the new channel he has marked for it.

EVANSVILLE WIDE OPEN.

Evansville, Ind., Sept. 18.—Evansville is again a "wide open" town, and the uptown saloons are running night and day.

Following the riot in this city in July, Mayor Charles G. Covert ordered policy stopped and all the gambling slot machines were removed from the saloons. The saloons were forced to close at midnight, and remained closed until 5 o'clock in the morning. On Sundays the saloons were permitted to open their doors at 1 o'clock in th eafternoon and remain open until midnight.

The slot machines have appeared in many of the saloons again, and it is said the police authorities have orders not to molest them. Many of the uptown saloons have been running night and day for the last week, and it is understood they will not be troubled. Mayor Covert has been out of the city for a few days, and the town was made "wide open" in his absence, but friends close to him say he will not interfere when he returns.

BANK TO PAY BIG INTEREST.

Pittsburg, Pa., Sept. 18.—Considerable interest was created among Pittsburg bankers today by the announcement that the Second National bank, of Connellsville, Pa., one of the strongest institutions of the coke region, had decided on Tuesday to hereafter pay five per cent. interest on savings accounts. The purpose of the officials is to induce those who have been hoarding wealth at home to place the money in banks. Unusual demands for money inspired the launching of the new plan. It is claimed that the action of the Connellsville bank in paying five per cent. is the first taken since the rebellion by any banking institution in the United States. Pittsburg bankers do not fear any disturbance of money conditions as a result of the increased rate.

REPLIES TO HERR BEBEL.

Dresden, Saxony, Sept. 18.—At today's session of the socialist congress Herr Vollmer spoke for four hours in reply to Herr Bebel. The sense of his discourse was there was no chisis in the party except a persons crisis, Herr Bebel seeing with grief his leadership in parliament threatened. Herr Bebel, the speaker added, spoke to the congress as Cromwell spoke to parliament and arrogated the right to judge and condemn motives. He desired to convert a church with himself as supreme pontiff. As fifty-five delegates have given notice of their intention to speak, it is probable that the congress will sit through next week.

TWO KILLED BY TRAIN.

Erie, Pa., Sept. 18.—Thomas Eldredge, aged 22, a son of Postmaster L. O. Eldredge, of North Springfield, and Miss Minnie Ruland, aged 20, were instantly killed by the Lake Shore limited at an early hour today, about two miles west of North Springfield. They wer both prominent and popular young people and were returning home from a party in a carriage when killed.

Miss Bessie Parker went to London, Ont., today to visit her parents.

LABOR ASSEMBLY TO MEET IN SOUTH BEND

Fort Wayne Will Try to Secure the Convention for the Following Year.

South Bend, Ind., Sept. 18.—It is believed that, besides being the largest state labor convention ever held in the state, that the assembly beginning Tuesday next will be marked by an almost total absence of the socialistic element, which to many has cut too large a figure in Indiana labor gatherings. The sessions will be held in Maccabee hall and will begin Tuesday at 10 a. m., continuing throughout Thursday. Mayor Fogarty, a labor leader, who is supposed to have congressional aspirations, will welcome the delegates on behalf of the city, and Hon. Joseph Suchanck on behalf of organized labor, while President Perkins will respond.

During the afternoon speeches will be made by State Factory Inspector D. H. McAbee and by State Labor Commissioner McCormack. In the evening the typographical delegates will be given a reception by the local union, while the women delegates will be entertained at the home of Mrs. J. W. Peters. Wednesday afternoon will occur the election of officers and a visit to Notre Dame university, with speeches during the day and evening by D. F. Kennedy, of Indianapolis, and C. E. Hawkes, vice president of the International Typographical Union. Thursday morning an address will be delivered by Warden Reid, of the state prison, who will talk on topics connected with prison labor. There will also be addresses by Henry V. Fisher, of Louisville; Edwin F. Gould and others. Clinton, Terre Haute, Muncie and Fort Wayne are striving to secure the next state convention.

COLLIERIES ARE CLOSED.

Shamokin, Pa., Sept. 18.—The Cameron and Luke Fideler collieries, owned by the Mineral Railroad and Mining company, employing 2,500 men and boys, closed down indefinitely today on account of the coal trade.

Mahanoy City, Pa., Sept. 18.—The Mahanoy City colliery of the Philadelphia and Reading Coal and Iron company, employing 800 men, which closed today owing to the unsafe condition ofthe mine.

GREEN WAS DRUNK.

Lafayette Green was the only prisoner at the bar in police court this morning. He accumulated a bigger assortment of intoxicating drinks yesterday than he could carry and walk corcumspectly and for the offense he was declared indebted to the state of Indiana in the sum of $15 and sent over until he can either pay or serve out the sentence.

FIVE JEWS WERE SLAIN.

St. Petersburg, Sept. 18.—Later official reports from Comel, in the government of Mogileff, where fighting between Christians and Jews arose Sept. 11, increase the death list of the Jews to 5. About 200 houses were destroyed and 68 arrests were made. The Official Messenger says the disturbances at Comel were caused by the provoking attitude of the Jews towards the Christians.

BEGAN PRACTICE TODAY.

About fifteen candidates for positions on the International Business college team began practice this afternoon at League park under the supervision of Herman Brown, who has consented to act as coach for the team, and will work out every afternoon. A meeting of students was held yesterday afternoon at the college and the following temporary officers of the foot ball association were elected: Herman Brown, chairman; Alvin Tennant, manager; Lester Tucker, secretary and treasurer. A great deal of interest and enthusiasm is being shown and the prospects are that the college will be represented by a strong and well trained eleven this year.

THE BISHOP'S ITINERARY.

Bishop Alerding has begun his visits to the different churches of the Fort Wayne diocese for the purpose of administering confirmation. His itinerary, beginning next Sunday, is as follows:

September 20—Hammond, three churches, confirmation.

September 21—Lottaville, confirmation.

September 27—Huntington, St. Mary's and SS. Peter and Paul's churches, confirmation.

October 25—South Bend, St. Hedwig's church, confirmation.

Avilla and Besancon (confirmation), on a week day to be chosen.

TAKING OFF SUMMER CARS.

The Fort Wayne traction company is taking the summer cars off the different lines as rapidly as the closed cars can be got ready for service. Yesterday there were but five open cars in service and they will all be withdrawn in a day or two. Two of the large new cars of the same type as was used on the Belt line have been turned out of the paint shop and will be put in service as soon as their fixtures are put in. Two other cars are in course of erection and as soon as they are turned out two more will be begun. The cars built by Fort Wayne artisans have proved much superior to those bought from car-building firms, both in appearance and durability.

REDEEMER MISSION FEAST.

Rev. F. Hofmann, of Van Wert, O.; Rev. A. C. Doerffler, of Goeglein, and Rev. W. A. Brandes, of Huntington, will be the speakers at the annual mission feast of Redeemer English Lutheran church on Sunday. Rev. Hofmann will preach in the English language at 10:30 a. m. and Rev. Doerffler and Rev. Brandes will speak in German and English respectively in the afternoon, beginning at 2:30. The morning service will be held at Redeemer church and the afternoon service at Emmaus church, should the weather prove unfavorable. Otherwise both services will be held at Swinney park. The ladies of the congregation will serve dinner and supper.

HAVE SMOKER TONIGHT.

The Library Hall Athletic association will have a smoker this evening in Library hall and will make arrangements to renovate the bowling alleys. The association is planning to give a number of social entertainments during the fall and winter.

PROF. BAIN DEAD.

Aberdeen, Scotland, Sept. 18.—Professor Alexander Bain, formerly lord rector of the university here and for twenty years professor of logic and English literature, is dead.

J. F. Conway, who succeeds H. W. Ten Broek as manager of the Metropolitan Insurance company's business in this district, arrived from Hamilton yesterday.

RESIDENTS FIGHT THE PROPOSITION

Session of the Board of Public Works Develops Some Pointed Talk.

Tom Peter, of the Federal Asphalt company and the Interstate Construction company, submitted to the board of works at its regular session last night the plan outlined in The Sentinel of yesterday for having the paving on Maumee avenue accepted so that the companies interested can obtain an estimate and collect the money due them.

He was met by a delegation of property owners who were there to fight his proposition, and after both sides had been heard the board took the matter under advisement. The session lasted until about 11 o'clock and the greater portion of the time was devoted to hearing the arguments for and against the acceptance.

Ex-Mayor Scherer was the leader of the opposition, and in the course of his arguments he aroused the ire of Mr. Peter, who said that all the muss about the pavement had been stirred up by paid agents of the Barber Asphalt company. This was taken by Mr. Scherer as a reflection upon his sincerity and he gave vent to a torrid rejoinder in which he said Peter had offered to give him half of his assessment to work for the acceptance of the pavement. This Mr. Peter denied and Mr. Scherer replied by saying that the offer was made in his office.

At this point in the proceedings Charles Buhr, former councilman from the eighth ward, jumped into the breach and widened it by saying that Peter had offered him $100 to work among the property holders to get them to select rock asphalt for the surfacing. After the proceedings had reached an acute stage the members of the board announced they would take no action, and routine business was taken up.

THE REGULAR GRIST.

A petition was received from the Wabash railroad asking for an additional track on the right of way across Fairfield avenue. This was filed.

The plat of the Morton place addition to the city, on Fairfield avenue, was approved.

Action on the assessment roll for the vacation of the alley between Harrison and Webster streets, from Berry to Wayne, was postponed until next week. A number of routine matters were also taken up by the board.

LOCAL LINES.

Harry Moellering has gone to Ann Arbor to take a course in medicine.

Mrs. C. A. Dunkleberg entertained Thursday afternoon in honor of Mrs. James Stewart, of Osawatomie, Kas.

Mr. and Mrs. Charles McCulloch entertained a number of their neighbors at the McCulloch farm at pedro last night.

Mrs. H. A. Kirchefer entertained a company of ladies yesterday afternoon in honor of Mrs. Ten Broek. Mr. and Mrs. Ten Broek and sons leave Saturday for their home in Grand Rapids.

CHAMBERLAIN'S RESIGNATION IN

British Colonial Secretary Out of Cabinet—Two Go With Him.

London, Sept. 18.—The resignation of Joseph Chamberlain as secretary for the colonies, C. T. Ritchie as chancellor of the exchequer and Lord George Hamilton as secretary for India were officially announced last evening. King Edward has accepted the resignations.

The official announcement of the resignations of Mr. Chamberlain and his two colleagues from the cabinet was made last night at Downing street in the following communication:

"The following ministers have tendered their resignations, which have been accepted by the king: Joseph Chmberlain, secretary of the colonies; C. T. Ritchie, chancellor of the exchequer, and Lord George Hamilton, secretary for India.

"The accompanying correspondence passed between the premier, A. J. Balfour, and Mr. Chamberlain."

FORCED TO DROP TARIFF.

Then follows Mr. Chamberlain's letter, dated Birmingham, Sept. 3, commencing: "My Dear Balfour," in which he sets forth his reasons for his resignation. An extremely interesting feature of the letter is the following statement concerning a preferential tariff:

"For the present, at any rate, a preferential agreement with our colonies involving any new duty, however small, on articles of food hitherto untaxed, even if accompanied by a reduction of taxation on other articles of food equally universal in their consumption, would be unacceptable to the majority of the constituencies. However much we may regret the decision, however mistaken we may think it, no good government in a democratic country can ignore it.

"I feel, therefore, that as an immediate practical policy the question of preference to the colonies cannot be pressed with any hope of success at the present time, although there is a very strong feeling in favor of the other branch of fiscal reform which would give fuller discretion to the government in negotiating with foreign countries for a freer exchange of commodities and which would enable our representatives to retaliate if no concession was made to our just demands.

WILL WORK FROM WITHOUT.

"If, as I believe, you share these views, it seems to me that you will be absolutely justified in adopting them as the policy of your government, although it will necessarily involve some changes in its constitution. As secretary for the colonies during the last eight years I have been in a special sense the representative of the policy of a closer union which I firmly believe to be equally necessary in the interests of the colonies and ourselves. I believe it is possible today and may be impossible tomorrow to make arrangements for such a union. I have had unexampled opportunities of watching events and appreciating the feelings of our kinsmen beyond the seas. I stand, therefore, in a different position to any of my colleagues and I think that I should justly be blamed if I remained in office and thus formally accepted the exclusion from my political program of so important a part thereof.

"I think, that with absolute loyalty to your government and with no fear of embarrassing it in any way, I can best promote the cause I have at heart from the outside, and I cannot but hope that in a perfectly independent position my arguments may be received with less prejudice than would attach to those of a party leader. Accordingly, I would suggest that you limit the present policy of the government to an assertion of our freedom in the case of all commercial relations with foreign countries and that you should agree to my tendering my resignation of my present office to his majesty and devoting myself to the work of explaining and popularizing these principles of imperial union which experience has convinced me are essential to our future welfare and prosperity."

CRY OF "DEAR LOAF" HURTS.

The first portion of this letter refers to Mr. Chamberlain's first speech on the subject at Birmingham and Mr. Balfour's reply to the corn tax deputation. Mr. Chamberlain says that neither of them was intended to provoke a purely party controversy. He points out the unyielding opposition of the liberal party, which scouted the idea that a system generally accepted in 1846 could possibly require modification in 1903. Meanwhile the advocates of reconsideration were at a great disadvantage owing to the admitted differences of opinion inside the party. The political organization of the party was paralyzed.

Mr. Chamberlain declares that an unscrupulous use has been made of the old cry of the "dear loaf" and that serious prejudice has been created. In the rest of the letter he goes briefly over the same ground regarding protection, as did Mr. Balfour in his recent statement.

Mr. Balfour in a letter to Mr. Chamberlain, dated September 16, explains that he did not reply earlier because he knew he would soon have an opportunity of talking over the important issues with which the letter deals. "Therefore this reply rather embodies the results of our conversations than adds anything new to them."

BALFOUR SHARES HIS VIEWS.

Mr. Balfour continues: "Agreeing as I do with you that the time has come when a change should be made in the fiscal canons by which we bound ourselves in our commercial dealings with other governments, it seems paradoxical, indeed, that you should leave the cabinet at the same time that others of my colleagues are leaving it who disagree on the very point with us both. Yet I can not but admit that there is some force in your arguments in support of that course, based as they are upon your special and personal relation with that portion of the controversy which deals with colonial preference. You have done more than any man living or dead to bring home to the citizens of the empire the consciousness of impartial obligation and interdependence between the various fragments into which the empire is geographically divided.

"I believe you to be right in holding that this interdependence should find expression in our commercial as well as our political and military relations. I believe with you that a closer fiscal union between the mother country and the colonies would benefit the trade of both, and that if such closer union could be established on fitting terms its advantage to both parties would increase with years and as the colonies grew in wealth and population.

TIME NOT YET RIPE.

"If there has ever been any difference between us in connection with this matter it has only been with regard to the practicability of the proposal which would seem to require on the part of the colonies a limitation in the all-round development of a protective policy and on the part of this country the establishment of a preference in favor of important colonial products. On the first of these requirements I say nothing, but if the second involves, as it most certainly does, a taxation, however light, upon foodstuffs, I am convinced with you that public opinion is not yet ripe for such an arrangement. The reasons may easily be found in past political battles and present political misrepresentations.

"If, then, this branch of fiscal reform is not at present within the limits of practical politics, you are surely right in your advice not to treat it as indissolubly connected with that other branch of fiscal reform to which we both attach importance and which we believe the country is prepared to consider without prejudice.

SORRY TO LET HIM GO.

"I feel, however, deeply concerned that you should regard this conclusion, however well founded, as one making it difficult in your very special circumstances for you to remain a member of the government. Yet I do not venture, in a matter so strictly personal, to raise any objection if you think you can best serve the interests of imperial unity, for which you have done so much, by pressing your views on colonial preference with the freedom which is possible in an independent position, but hardly compatible with office.

"How can I criticise your determination? The loss to the government is great, indeed, but the gain to the cause you have at heart may be greater still. If so, what can I do but acquiesce?"

Mr. Balfour in a postscript says: "May I say with what gratification, both on personal and public grounds, I learn that Austen Chamberlain is ready to remain a member of the government? There could be no more conclusive evidence that in your judgment, as in mine, the exclusion of the taxation of food from the party program is, in the existing circumstances, a course best fitted practically to further the cause of fiscal reform."

SWELL DRESSERS

All Want Clothing Cut By Frankel—New Fall Patterns Now In.

As the fall season advances the minds of the nobby dressers turn to thoughts of clothing. Never before has there been shown in Fort Wayne a line of fall and winter Suitings, Overcoatings and Trouserings equal in quality and tastiness to that displayed this season by the Frankel Tailoring Company. The show windows of their saleeroom are attracting a great deal of attention, owing to the nobby patterns displayed therein. There is to all the Frankel Clothing a distinct, dressy style and finish that is to be found in no other garments made in this city. To be well and stylishly dressed means that you are wearing a Frankel Suit. This natty effect is largely due to the skill of the head cutter of the establishment. Mr. Frankel, realizing that his Fort Wayne patrons demanded the best to be had, spared no expense in securing the services of the highest order of skill and talent in the work rooms of his establishment, with the most satisfactory results, since everything made by him takes the lead for QUALITY, WORKMANSHIP, FIT AND NOBBINESS.

TWO DIE OF BURNS.

St. Louis, Sept. 18.—Mrs. Mary E. John and her thirteen-year old daughter Pearl died today from burns caused by gasoline, and Harry, the ten-year-old son of the woman who turned the explosive fluid on in his sleep, cannot live. The boy had been in the habit of helping his mother about the stove during the day. He was a somnambulist, and in his sleep last night turned on and lighted the stove. A fire resulted that burned Mrs. Jahn and Pearl, who ran to the boy's aid.

FROSTS ARE FELT IN MANY STATES

A Low Temperature Prevails Over Large Area but Little Damage is Done.

Kansas City, Mo., Sept. 18.—The weather conditions throughout Kansas and Western Missouri last night were much the same as on the previous night, except that the thermometer did not register quite so low a figure. The sky was clear and frosts occurred at several points, but was not severe enough to kill. The mercury at Kansas City registered 48 degrees at 6 o'clock this morning. It is not believed corn is damaged to any great extent. The local weather indications for this section is for warmer weather. Springfield, Mo., reports a temperature of 42 degrees with frost. In Kansas frost prevails at Manhattan, and also at Concordia, where a heavy frost was apparent.

Peoria, Ill., Sept. 18.—The coldest weather of the season was reached during the night, when the thermometer registered 39. There was a heavy frost, which did considerable damage to crops.

Des Moines, Iowa, Sept. 18.—No frost was experienced here last night. The thermometer recorded 41 above. Reports indicate that warmer weather will prevail and that all danger from a blighting frost is over.

Omaha, Neb., Sept. 18.—No frost was perceptible in Omaha this morning and the temperature at 7 a. m. was about 50 above. There was a moderation over the state during the night, and it is not believed the predicted frost appeared at any point.

St. Paul, Minn., Sept. 18.—A light frost touched St. Paul, Minn., Green Bay, Wis., and Davenport, Iowa, last night, but no damage was done. The weather forecaster says the temperature in St. Paul last night was 38 and 36 in the country.

Milwaukee, Wis., Sept. 18.—The weather bureau reports frost in Milwaukee and vicinity last night and also at Marquette, Mich., with damage to vegetation. The weather is clear and bright today, with indications of slowly rising temperature.

Lacrosse, Wis., Sept. 18.—A heavy frost occurred in this vicinity last night, doing some damage to the corn crop.

Bloomington, Ill., Sept. 18.—Reports from all sections of central Illinois show that while there was a heavy frost last night, the first of the season, the corn crop escaped.

St. Louis, Sept. 18.—No frost was reported by the weather bureau in this vicinity, although the weather was cold and clear this morning. The temperature, which was 47 degrees at 7 a. m., is rising.

Chicago, Sept. 18.—At 7 o'clock this morning a heavy frost prevailed here and in northern Illinois. The local temperature was 41 degrees. Considerable damage is believed to have been done to corn.

Topeka, Kan., Sept. 18.—This section of Kansas again escaped a frost last night. Warm weather is expected.

Madison, Wis., Sept. 18.—The first frost of the season visited this section last night having, previously been averted by clouds. Much damage was done in low places to corn and tobacco.

Cincinnati, Ohio, Sept. 18.—The weather bureau here this morning reported a temperature of 44 degrees. Clear weather and frosts throughout the northerin part of the Ohio valley.

A COLOSSAL FAILURE.

Steel Mackaye was an actor who had ideas. He built the Madison Square theater and other theaters, wrote plays for them, managed productions and showed that he possessed more versatility than Hammerstein. He made colossal failures, too, and the greatest of these was the Spectatorium, near the world's fair grounds, in Chicago. This was designed to be the largest theater in the world. The world's fair managers placed their gates at such position that Spectatorium could not draw fair crowds, stockholders who paid for their certificates objected to rule by holders who got blocks for influence that was never of value, and so the greatest theater on earth was never completed. Judge Tuley has brought ten years of litigation over this failure to a close by saddling non-paying stockholders with their portion of the concern's debts. Mackaye is dead and the material of the Spectatorium was long ago thrown into the scrap heap.—New York World.

AS OTHERS SEE US.

That some English people believe Americans capable of any sort of freakish notion under the guise of entertainment is attested by a paragraph in a recent issue of an English weekly. The writer, a woman, says that an American friend tells her that "a new Yankee notion is a 'crazy social,'" at which the idea is that everybody and everything should look and act as insanely as might be. The costumes, the women and men should be eccentricity personified, and the food served should be arranged to match." According to this chronicler, at a recent "crazy social" the meats were served in jelly molds, jam pots or dust pans; the vegetables in cake baskets, the blancmange in a fire shovel, the ice cream in a stew pan, the wine glasses were filled with mustard, the jellies trembled in a saucepan lid, the cream was in a pickle bottle, the sugar in the salt cellars, and the salt in the sugar basins. The things which ought to have been roasted were boiled, and salt flavored food which is usually sweet. Attempts were made to eat clear soup with desert forks and ice cream with table knives.—Brooklyn Eagle.

$70 FUNERAL OF A GREAT MAN.

The statement in our cable dispatches that the funeral of Lord Salisbury was limited by his will to a cost of $100, and actually cost only $70, is of importance as well as interest. In planning for himself such modest obsequies the late prime minister of the British empire set an example which should have as great public usefulness as many of his achievements in statesmanship.

Lord Salisbury was one of the great figures, if not one of the great men, of his generation, and some ostentation at his funeral could hardly have been censured. Yet many a poor widow in New York squanders twice or thrice as much money upon the burial of her husband, though she may face want and hardship for the rest of her life.

The love that dictates such sacrifices may be beautiful, but the false pride mingled with it is not. Lord Salisbury set an excellent example, one that rich and poor alike should follow in principle.—New York World.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. YACHT IS WRECKED WITH ALL ON BOARD

Sailing Party Aboard the Red Dragon Lost in the Gale --Late Wreck News.

New York, Sept. 18.—The knockabout yacht "Red Dragon," of Atlantic City, about forty feet long, is ashore near Harvey Cedar's life-saving station, five and a half miles south of Barnegat inlet, New Jersey. The life-savers are trying to get her out of the surf.

A message from Ship Bottom life-saving station, near Barnegat, received here today says a body was washed ashore at that point.

The Gypsy Girl, one of the missing fishing schooners of the Fulton market fleet, came into port today. Although the smallest vessel in the fleet, she went through the storm of Wednesday without damage. Three others, the Ettie Peterson, with a crew of twenty-one; the Emily P. Wright, with seventeen, and the Lena Fernald, with seventeen, had not been reported.

Later the Lena Fernald arrived with all on board safe.

ALL ON BOARD LOST.

Philadelphia, Sept. 18.—A dispatch to the maritime exchange from Atlantic City says the Red Dragon was wrecked and probably all on board were lost. The little vessel started from Atlantic City on Tuesday for a long fishing cruise, having on board a party consisting of Captain J. Clark, John Swanson, wife and children, Sinbad Ducasse and John Adams.

The body of Captain Clark and another body, supposed to be that of Ducasse, washed ashore today and it is presumed the others were also drowned.

Another body, supposed to be that of J. L. Swanson, is reported to have been washed ashore at Beach Haven, N. J. It is said John Adams, Clarence Treacy, Mrs. Swanson and the latter's son and daughter were also on the wrecked boat.

There is no hope that any of the party escaped drowning, as it is regarded by seamen as unlikely that there could have been any attempt at rescue by passing vessels during the severe storm of Wednesday.

BARGE WAS IN FLAMES.

Philadelphia, Sept. 18.—The barge Bear Ridge, from this city for Newburyport, Mass., was beached above the Delaware breakwater this morning, with fire in her engine room. The barge at 2 a. m. displayed signals of distress and when tugs went to her assistance she was found to be on fire. The barge was beached and water pumped into her. It is not known how badly the barge is damaged, but it is believed she will not prove a total loss.

The government lighthouse keeper at the harbor of Refuge, Delaware breakwater, came ashore this morning and reports that the lighthouse sustained much damage by Wednesday's storm. The keeper says the house was started, windows smashed and the entire house flooded. The supplies on hand were ruined by the salt water and the keeper was forced to come ashore for oil to keep the lights burning. The tender Zizania, with supplies, is on her way down the Delaware river.

Reports to the maritime exchange this morning are to the effect that a three-masted schooner is at anchor at Rehoboth, Del., with her foremast gone and sails blown to ribbons.

LIPTON SHOWS IMPROVEMENT.

Chicago, Sept. 18.—Sir Thomas Lipton, who is ill here, enjoyed a refreshing sleep last night and his friends were greatly pleased at his condition this morning. The following bulletin was issued: "8 a. m.—Patient slept six hours; no pain; temperature normal; pulse 78; condition favorable.—H. M. Thomas, M. D." At noon the patient showed further improvement and Alexander H. Revell, the baronet's host, said: "He took more nourishment this morning than at any previous time during his illness and is resting comfortably. If he gets through the day in the same condition we think the danger will have been passed."

SCHELE-ZURBUGH.

Miss Zoa Zurbugh and John J. Schele were quietly married on Thursday morning at 7 o'clock at the parsonage of St. Patrick's Catholic church, Rev. J. F. Delaney officiating. Following the ceremony, a wedding breakfast was served at the home of the bride's parents on Walnut street. The house was very prettily decorated with flowers. Mr. and Mrs. Schele will begin housekeeping at the corner of Pearl and Harrison street.

CROPS DID LITTLE HARM IN INDIANA

State Statistician Believes Chances Not Gone for Average Corn Crop

Indianapolis, Sept. 18.—B. F. Johnson, chief of the Indiana bureau of statistics, believes that last night's frost in Indiana has not materially injured the chances for an average yield for corn in Indiana, and unless there should be heavier frosts within a week or two he believes the Indiana crop will be the average.

Farmers from all over the state called on Statistician Johnson at his office yesterday to learn his opinion on the loss in the corn crop from the destructive frost that was indicated for last night.

So much depended on the severity of the frost that precise figures were not given by Mr. Johnson, but the loss from a "killing" frost to Indiana's corn crop was estimated at about 43,483,247 bushels of corn.

This estimate is very conservative, as the state statistician placed the loss from a heavy frost at 33 1-3 per cent. of the entire corn crop, but other experts who called at his office declared that, with the condition the corn was in, the loss would be fully 50 per cent.

Mr. Johnson drew his estimate from last year's corn crop. It was a record year, the number of bushels being 180,490,741, or about one-third more than the average crop in Indiana during the last ten years. Its money value represented about $72,196,296.

However heavy the frost, Mr. Johnson says he is positive that 50 per cent. of the corn this year will not be injured. While much of the late corn in parts of the state will be greatly damaged, he says there is a large acreage in the central part of the state that is sandy soil, and that the crop on this land is far enough advanced to escape great injury.

The state statistician places the loss to the tomato crop from a killing frost as nearly complete. He says only about half of this crop has been gathered.

Losses from the damage to Irish and sweet potatoes will be heavy, but having no figures at hand Mr. Johnson would not place a precise estimate.

He said that owing to the late spring and rainy weather many farmers did not plant their potato crop until late, so the vines were in a flourishing condition. A killing frost, he said, would totally kill these vines.

TIE-UP TO END STRIKE.

Chicago, Sept. 18.—A special to the Evening Post from Cleveland says that the big fleet of the United States Steel corporation, which has been tied up by the strike of the Masters and Pilots' association, will be sent into winter quarters as fast as the boats arrive at the laying-up points. This is the outcome of one of the most remarkable strikes in the history of the great lakes, a strike in which all sorts of charges of conspiracy and "graft" have been made. It is expected that the fleet will be tied up by the first of next week, thereby throwing out of employment 2,500 men directly and a vast army employed in the mines and steel mills. The steamer Clemson, which caused the complications, arrived at South Chicago today. Another, the John B. Trevor, reached Chicago today and was promptly tied up by the mates' strike.

PROGRAM BUT HALF COMPLETED

Ogden, Utah, Sept. 18.—With the closing session of the eleventh national irrigation congress scheduled for this evening not half of the work of the congress has been accomplished. A large number of papers by the heads of bureaus of the agricultural department which were to have been heard yesterday were on the program for this morning before the fight for the 1904 congress was to be taken up. On the suggestion of Chief Engineer Newell and the government engineers only three of the addresses on the program were delivered in order to give more time for discussions on the land laws question. All of the papers of the government experts will be printed in the official proceedings of the congress.

Want Baseball Recruits

Managers Everywhere Are Hunting For Promising Youngsters ⁘ Minor League Stars In Demand. Indian Players.

These are the days when baseball managers the country over have their scouts out looking for promising minor league players. The ambitious managers are working overtime and spending barrels of money in their efforts to secure material with which to strengthen for next season.

The demand for young players of speed and promise is greater than the

WILLIE SUDHOFF, STAR AMERICAN LEAGUE PITCHER.

[Sudhoff is with McAleer's St. Louis Browns and is hailed as the leading American league pitcher of the season.]

supply. Baseball, so far as the player is concerned, is certainly enjoying a wave of financial prosperity. Minor league players of more than ordinary ability are holding out for sums that would have tempted the greatest stars of the diamond less than a decade ago.

There is not one club in either major league that is not after young players. Patsy Donovan of the St. Louis Nationals has a string on several players at present whom he intends to give a trial with the Cardinals next year or toward the close of the season.

Manager McAleer of the St. Louis Browns has not only been scouting the country for fast youngsters, but has had Captain Padden on a similar mission. And McAleer's mission has been fruitful. In his net he seems to have landed several very promising men.

Pelty, a pitcher in the "Three I" league, has practically consented to become a Brown leg. McAleer banks on securing Elliot, the Milwaukee phenom, while Glade, the St. Joe pitcher, is also to become a Brownie, according to many apparently well founded reports.

Ed Beacher, the Terre Haute infielder, is another youngster who may bob up as a St. Louis American next season. With these four players practically signed and more to hear from, the McAleer team looks to have a good chance to develop into a fast team next year.

In Chicago both Hart and Comiskey are searching for players of youth and promise. The Nationals want a couple of hard hitting outfielders, while Comiskey wants two infielders, an outfielder and a high class battery.

The Cincinnati club will pay a good price for a couple of good infielders and one star pitcher. Pittsburg needs more than one twirler. The Philadelphia National league club is in the market for at least six good tossers, as it is President Potter's wish to practically reorganize the team.

Connie Mack of the Philadelphia Americans may stand pat on his bunch of players. Ball players are also wanted in New York. As Lauder is to retire from baseball and Dunn is a dummy at third, J. Mugsy McGraw of the Nationals will want a third sacker, and he would also welcome an opportunity to sign a couple of smart young slab men.

Clark Griffith needs an outfielder. Ganzel's work at first has been of such a mediocre quality as to make a successor to that position almost certain. Griffith will also be out for another battery for his New York Americans.

In Boston Jimmy Collins, now that he has secured young O'Neill for his outfield, will not be compelled to do much worrying on the question of youngsters. As the Boston American team stands it is practically complete and sound in every department.

In the outfield and in the box Larry Lajoie's team of Cleveland Bluebirds is not particularly strong, and Larry more than likely has a new outfield and one or two pitchers in view.

Barrows' Detroit team is shy an outfielder and also needs another infielder who can hit the ball. Nor has Barrows got over his hankering for a good south paw twirler. While in St. Louis recently Barrows intended to give young Hines, a minor leaguer, a chance with his team, but could not locate the youngster.

If Loftus is forced out at Washington next season the chances are that that team will have many new faces in the line up. Some of the old players on that team probably will be with the minors before many years, and the team intends to strengthen for the time when the already crumbling Senators fall to pieces.

Little is ever heard of Sockalexis, the first Indian ball player in the National league, who several years ago was a great attraction with Cleveland. After the brief period in which he shone among the stars Sox was for several seasons all in and now is said to be running a ferryboat somewhere in Maine, a stunt that one member or another of his family has been doing for many years. He might have lasted, but the pace he tried to keep up after working hours was the limit and put him out of it, just as it has other good ones.

When he first attracted attention Sox was attending college and playing remarkably well, and after Tebeau annexed him he made good. He was a heavy hitter and a great drawing card for a time. After a toboggan ride from big league circles he tried with the minors for a period and then went back among his fellow red men, to be almost forgotten by fans who had cheered him till they were hoarse.

The Indian player is no longer a good advertisement and has to have ability in order to stick in fast company. Bender, twirling for Connie Mack, is a Chippeway Indian and a good player. An Indian named Bruce, a star of the Eastern league, and a pitcher named Hale in the American association are about the only other reminders of the days of Sockalexis.

What such crack twirlers as Mathewson, McGinnity, Willis, Leever and Jack Taylor are considered in the National league so the Indian, Al Bender, is becoming thought of in the American league. He stands just as high as a deceptive twirler as Cy Young, Dineen and other star pitchers of the American league. Bender, being on the same team as the famous Rube Waddell, has had a hard time to hold his own with that eccentric but popular south paw.

At the close of last season and at the beginning of this Waddell was the idol of Philadelphia fans. Quaker enthusiasts imagined that such a pitcher never lived, and the idea that any other pitcher could surpass Rube in Quaker City popularity and ability was considered an impossibility.

Still that is what Bender, the Indian pitcher, has done. He is now considered, since Waddell's downfall owing to erratic work, the winning pitcher of the Athletics and is just as popular throughout the American league circuit this year as was Waddell last.

AL BENDER, CRACK INDIAN PITCHER OF THE QUAKER AMERICANS.

Bender is a full blooded Chippeway and was born in Fosston, Minn. He is twenty-two years of age, is six feet in height and weighs 170 pounds. There has been but one other Indian who has gained a big reputation as a baseball player, and that was Sockalexis, the Penobscot, who gained fame as an outfielder.

Bender is a "comer" and has still many years of usefulness and a brilliant career ahead of him. He is a natural ball player, having taken up the national game instead of football while attending Carlisle Indian school, of which he is a graduate. He played football a little, but it did not appeal to him as much as baseball. He soon became the star pitcher of his college nine and increased his reputation from year to year, until, when he graduated, he was engaged by the Harrisburg A. C., as pitcher. He made good there and soon attracted the attention of Manager Connie Mack of the Athletics of Philadelphia, who gave him an engagement at a good salary, which will be largely increased next season.

Bender has terrific speed, splendid curves and good control. He is up on every point of the game and fields his position on puzzling bunts like a veteran.

An Old Time Fighter.

Dooney Harris, the old time prize fighter, who died recently, was a noted ring exponent in the time of Jem Mace, Joe Goss and Jim Elliott.

There is a creeping moss found in the islands of the West Indies which is called the "life tree," or, more properly, the "life plant." Its powers of vitality are said to be beyond those of any other plant. It is absolutely indestructible by any means except immersion in boiling water or application of a red-hot iron. It may be cut up and divided in any manner and the smallest shreds will throw out roots, grow and form buds. The leaves of this extraordinary plant have been placed in a closed air-tight, dark box, without moisture of any sort, and still they grow.

GREAT STORMS PREDICTED.

Washington, D. C., Sept. 16.—W. T. Foster, the noted weather forecaster, has issued the following bulletin:

Among the most dangerous storms of the year will reach their greatest force not far from September 21. These great storms will be so general all around the earth that a more definite forecast is not necessary. Everyone should be prepared for them, although they will not reach all places. I expect hurricanes, tornadoes, cloud-bursts, snow storms, blizzards and frosts where such sometimes occur at this season.

Mealy Seed Wheat.

A 10 acre field of the Mealy this season yielded 40¼ bushels per acre. It is a plump, bold variety, with a bright golden straw; never lodges, stands up against storms like a stone wall. Out of 50 varities of winter wheat tested at the Ohio experimental station the Mealy has proven the greatest yielding and best milling wheat. Price, $1.00 per bushel, bags free; 10 bushels or more, freight paid. My seed is absolutely pure and clean. The Mealy has never been affected with the fly or rust. Remit by New York draft.

FEUDISTS CONVERTED BY SALVATIONISTS

Gospel Army Has Successful Tour in Breathitt County Murder Belt.

Jackson, Ky., Sept. 18.—"On to Salyersville" is the cry of the Salvation Army cavalry corps, under command of Colonel Holtz, of Cleveland, and today at dawn the band of workers coming into the mountains to convert Kentucky feudists marched away over the hills and across the mountain streams. The last rally was held last night and there were a number of conversions.

One girl got up and said if they had more preaching and less shooting in Breathitt county the men would not be afraid to go on the highways at night. She asked Colonel Holtz if he could not leave a number of his workers in Jackson.

Several revivals were held yesterday, some of them in the open air. All were largely attended and the singing of the members of the religious band and their cornets and tambourines made music far different from that to which the average citizen of Jackson is accustomed. Colonel Holtz said he was well satisfied with the work in Jackson.

"The people received us kindly and gave us a respectful hearing," he said. "I find the conditions here are much improved by the body of militia now stationed here. I am delighted with our trip so far."

The route to Salyersville lies along Frozen creek. The inhabitants of the country are poor and live for the most part in log huts, some without floors. Colonel Holtz says he will stop at several points and talk to the women and children at their homes.

NO REMEDY BUT LYNCHING

Cleveland, Ohio, Sept. 18.—William M. Brown, formerly of Ohio, who is now bishop of the Arkansas diocese of the Episcopal church, was in the city yesterday en route to Washington to attend the missionary council of the Episcopal church and the convention of the American house of bishops. Speaking of the race problem, he expressed himself quite plainly. "While I do not justify lynching, I can find no other remedy adequate to suppress the crime for which this has been made a punishment by the people of the south," he said. "I am a northern man and used to look with horror on lynching, but since I have been south my eyes have been opened. Imprisonment does no good.

"I am of the opinion that it would be well to leave the solution of the negro question to the southern people. They know best what to do. The enfranchisement of the negro has been a serious mistake. Very few of them have any convictions and their votes are cast, as a rule, for the man who pays the most money."

CALLED UP AT MIDNIGHT.

"Something like a month ago a neighbor of mine came to my house at midnight and called me up and wanted to know if I had a medicine in the store recommended for cramps in the stomach and diarrhoea. I sold him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which he carried back home and at the same time sent for a doctor. Immediately on his return home he gave a dose of this remedy, and he afterward told me that the patient was entirely relieved before the doctor got there," says Epoch Burson, O'Lea, Ala. PASTORS MUST HAVE BIG FEET.

Pittsburg, Pa., Sept. 18.—Itinerant pastors who have big feet well planted on the solid ground of common sense are wanted for work in this district. The Methodist Recorder, the organ of the Methodist denomination, contains the following advertisement written by President Gladden: "This conference needs at least three or four more pastors for circuit work, and anyone who can fill the following conditions will be welcomed, to-wit: Must have small families, if any, and be able to furnish a horse and come to charge unassisted; not afraid of hard work, no hobbies, no place-hunter, sound on the doctrine of holiness, willing to begin for nominal salary of $400 or $500; a good, clear head; a warm, loving heart, and big feet, well planted on the solid ground of common sense."

TO ACCOMMODATE those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price, including the spraying tube, is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions, but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

FIND THEIR CHILD A NEGRO.

New York, Sept. 18.—Residing in the home of a prominent and exclusive Brooklyn family is an eight-year-old mulatto girl, who up to a few days ago believed she was of white blood. In the home where she was reared as a loved adopted child it was not known that she was of negro blood until she grew old enough to take on the unmistakable physical traits of the African race. It was a startling discovery to the childless couple that had taken her for their own daughter—to bear their name. From a home of refinement, where all had been happiness and ease, she was sent back to the cold, forbidding charities building where, nearly eight years before, she had been a waif. For seven days, in which the girl cried herself thin and wan, she waited for someone to take her and give her another home. Then her foster parents called to claim her and take her back in their home. Despite the bar, they loved her and missed her so much that they could not endure her loss. They took her with them and told her that everything would be as before. She will be heir to a large fortune.

GOOD ADVICE FOR TRAVELERS.

Whether going to the mountains or sea shore or taking a journey on business or pleasure never leave home without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is worth many times its cost when needed, and may save life. Buy it now. For sale by all druggists.

PROMINENT MEN COMING.

Widespread interest is being shown in the coming conference of charities and corrections and the indications are that the attendance will be much larger than was at first expected. Acceptances have been received from Governor Durbin, George A. Shideler, of Marion, ex-warden of the state prison; James B. Reid, warden of Michigan City prison; Hon. Timothy Nicholson, of Richmond, ex-president of the national conference; Judge Sydney B. Davis, of Terre Haute; Dr. Joseph G. Rogers, Logansport, superintendent of eastern insane hospital, Long Clif; Joseph B. Byers, of Jeffersonville, secretary of the national conference of charities and corrections.

HAS BOUGHT SHAMROCK II.

New York, Sept. 18.—It is stated, in connection with reports from Chicago, that Captain Miller, who was skipper of the yacht Columbia during the summer and Captain Barr's assistant on the Reliance during the cup races, has bought from Sir Thomas Lipton the old cup challenger Shamrock II. The price paid for the hull was not known, but it is believed that it was not far from $7,000. The yacht has been on the shore at Erie basin for nearly two years, and while being protected from the weather as far as practicable, has become less and less valuable by corrosion. The purchasers will break her up for the value of the material.

JEROME CALLS SETH LOW WEAK LEADER

Says His Re-Election is Not Possible and Feels Reform Cause is Hurt.

Lakeville, Conn., Sept. 18.—District Attorney Jerome last night dictated a statement in reply to the criticisms of fusion leaders upon his letter of Sept. 15, to C. C. Nadal, in which he bitterly attacks Mayor Low. His statement shows that he intends to keep up his single-handed fight on Low until the day of the nominating convention.

He said among other things: "Are the estimable gentlemen who are engaged in abusing me rather than in determining whether my statements are true or not seeking to goad me into throwing light upon some of the peculiarities of the present administration? Even a reform administration is not without points that it would prefer not to have discussed.

"I see much is said about the admirable character of the administration. I think that I was one of the first to discover this and I did not hesitate to say so. I have never attacked it and am not doing so now.

I have simply pointed out that I do not believe Mr. Low can win, if nominated, and have given some of the reasons why I think so.

"I cannot write details, but the great majority of men as I meet them say Low cannot be elected and report great disaffection among the working folk. I am well informed that policemen and firemen are collectively against Low. I feel bitterly and passionately about these things. And why should I not? I see a great cause being wrecked, something much broader than the concerns of New York city alone. To the very last moment I will fight as strongly and as bitterly as I know how to prevent Mr. Low's nomination, but in the open and alone."

Mr. Jerome denied emphatically that he is a candidate for the mayoralty.

TAKES BOY THROUGH SEWER.

Davenport, Iowa, Sept. 18.—Benny Sampson, 14 years old, was swept for nearly 100 yards through a sewer by yesterday's storm. He passed into the Mississippi river and lives to tell the tale. A creek near his house runs through a culvert under Front street and the levee, and a heavy rainstorm turned the drain into a torrent. Benny fell into it, and before the horrified onlookers could interfere he disappeared in the sewer. People who saw him vanish ran to the river bank, and when his body shot to the surface at the outlet of the sewer he was rescued with the aid of a skiff.

WIN BY HALF A VOTE.

Noblesville, Ind., Sept. 18.—Late last night, after having devoted three days to hearing evidence, the board of commissioners held for the remonstrators in the fight against Wilbur Fisher, of Sheridan, who applied for liquor license. The same ruling applied to John McCarty, also of Sheridan, as the remonstrance against him was the same as the one against Fisher. The remonstrance, after it had been gone through very carefully several times, was found to contain 487 names, which is one-half a number more than a majority of the legal voters of Adams township, in which Sheridan is located. The board also held that the 109 withdrawals were not legal for the reason that they were in general terms and did not specify the particular remonstrance. Fisher immediately served notice on the board that he would appeal.

SUMMONS THE ENTIRE FORCE.

Columbus, Ind., Sept. 18.—The entire editorial, mechanical and business office force of the Evening Republican bundled themselves into a wagon yesterday morning and started overland to Nashville, Brown county, to answer the summons of the grand jury.

For months the Republican, which is the official county organ here, has been shutting its eyes to the wide-open condition of Columbus, which has a republican administration, and trying to attract attention to an alleged blind tiger which it claimed existed in democratic Brown county. It accused authorities and courts as being lethargic in enforcing the law, not only in the case of the blind tiger, but in white-capping instances.

Desiring to get evidence against law breakers of their own county, the Brown county grand jury sent to this county for the Republican force to ascertain from them the identity of alleged white-cappers and owners of blind tigers.

CROWDS ATTEND OPENINGS.

The fall openings of several down town millinery stores attracted a large number of the fair sex yesterday afternoon and evening, notwithstanding the chilly weather. The display of feminine headgear was beautiful and bewildering and the larger stores were very attractively decorated for the occasion. Especially noticeable for the stunning headgear shown, for the attractive decorations and for the large number of women that visited them during the afternoon and evening were the Mergentheim, Diehm and Malloy establishments.

MAD DOG PANIC IN A STORE.

Philadelphia, Sept. 18.—Foaming at the mouth and yelping in his frenzy a mad dog dashed into Strawbridge & Clothier's store yesterday, and before his course was run had bitten a 13-year-old boy and a little girl. The store was crowded, and as the mad dog flew among the shoppers they were stricken with terror and fled screaming in all directions. Several women fainted, while others had their clothing torn in the rush and sustained many bruises. The dog finally made its way out of the store and has not been captured yet.

THE MARKETS

Chicago, Sept. 18.—December wheat declined to 81⅛c on good weather. Later advices were bearish, clearances for the week being small, 1,900,000 bushels, and long wheat continued to come out. The tone became very weak and the market displayed no rallying power. The close was at the bottom with December down to 80½c, a net loss of 1¼@1⅜c.

December corn dropped to 50⅝c on favorable weather predictions. December closed weak at 50⅝c, a loss of 1⅛c.

December oats dropped to 38⅝c in sympathy with wheat and corn.

Provisions opened steady, May pork at $13.50, October lard at $8.20 and October ribs at $9.00.

The Close.

Prices at the close were as follows:

Butter, Cheese and Eggs.

Chicago, Sept. 18.—Butter—Market steady; creameries, 15@20c; dairies, 13@17½c.

Cheese—Market steady to firm; daisies, 11c; twins, 10½@10¾c; young Americas, 11@11½c.

Eggs—Market firm, 18@18½c.

The Day on Wall Street.

New York, Sept. 18.—Some renewal of yesterday's selling pressure against United States Steel occurred at the opening, forcing the common stock down ½ to 18⅜. This decline represented the only loss of importance in the market, transactions elsewhere showing moderate gains. Amalgamated, Missouri Pacific and Atchison were especially firm. The trading was fairly active and international stocks were not affected by the confused tone of the London market.

The purchasing movement increased in breadth on the improved western weather conditions and a general further rise was made in prices. Atchison, Union Pacific, Amalgamated and Tennessee Coal were most in demand and gained 1@1½. United States Steel was taken freely around 19 and the Southwesterns and Coalers were bid up sharply. An advance of 10 points in Michigan Central and a loss of a similar amount in Brooklyn Union Gas attracted some attention, although both stocks are usually dormant. American Ice preferred was off 1 and Sugar rose 2 points on a few transactions. Speculation was very dull at 11 o'clock, but the earlier advances were being well maintained.

Room traders realized on their purchases and there was a slight set-back all around which was accelerated by renewed weakness in United States Steel. Tennessee Coal reacted 1¾ from the highest, and Sugar a point. Some minor properties fluctuated a point or two either way.

The general market ruled fractionally above last night's prices, but there was no demand of consequence in either quarter.

The bond market was dull at noon and price changes were a little mixed.

Liquidation of United States Steel forced it down anew to 18¼, another low point. The steady downward movement of this stock aroused some misgivings among holders of other iron and steel properties and various stocks were thrown over. Pressed Steel Car dropped 2¾, American Car 1¾, Locomotive 1½ and Tennessee Coal 1. Crucible Steel preferred sold at 64 for 100 shares compared with 85¾, its last previous transaction in May, 1902. Standard railroad stocks did not participate in the decline to any extent and stiffened somewhat before 1 o'clock.

There was very little of interest to the afternoon trading aside from the speculation in United States Steel. The stock held on the low level, 18½, closely, and any efforts to recover met a new supply of stock and the price fell off again. Fluctuations in other active stocks were confined to the merest fractions, and the general trading was depressed by uneasiness over the lack of support over the iron and steel properties.

A further decline to 18 by United States Steel precipitated heavy liquidation in the other iron and steel stocks. Railway Steel Spring preferred broke 4 points, Pressed Steel Car 3¾, American Car 3¾, the preferred 3¼, and various others between 1 and 2 points. The low prices for the day were established pretty generally in all other stocks and there was a loss recorded of 2¾ for Metropolitan Street Railway and a point in Manhattan and Wabash preferred.

The closing was dull and weak.

DEATHS AND FUNERALS.

KROCKENBERGER.

Mrs. Paulina Krockenberger, wife of George Krockenberger, died Thursday night at the family home, 1208 Taylor street. Mrs. Krockenberger's age was 31 years, 5 months and 3 days and her death was due to consumption.

Surviving relatives include the husband, who is employed at the Olds Wagon works, and two brothers—John and Charles Habel, both residents of this city. She was a devoted member of St. John's Lutheran church and had many friends.

Funeral services will be held Sunday afternoon at 1:30 from the residence and at 2 o'clock from St. John's Lutheran church.

BUSCHBAUM.

Fannie Buschbaum, thirteen years of age, died Wednesday at the Indiana school for feeble minded youth.

The remains will be shipped to Beacon, Ind., for interment.

TESTIMONY IN JETT TRIAL.

Cynthiana, Ky., Sept. 18.—In the trial of Curtis Jett today for killing Town Marshal Thomas Cockrill, eleven witnesses testified that they heard the shots fired and immediately afterward saw Jett come out of the court house, thus corroborating the six of yesterday. Harrison Blanton said he heard Jett say:

"This is the forty-fifth that I laid low, and I'll visit my kinfolks." Noah Peters and Robert Blake described Jett's actions after the shooting when he came out of the court house.

Dr. Charles M. Stemen, of Kansas City, is in the city for a visit with his parents, Dr. and Mrs. C. B. Stemen. The son has been suffering from malarial fever, brought on by exposure during the floods at Kansas City, where he was active in the work of relief to the thousands of unfortunates.

JOSEPH RAMSEY IS IN PITTSBURG

Is Looking After Interest of Wabash in Fight for Councilmanic Favors

PENNSYLVANIA SURGEONS

Select St. Louis as Next Meeting Place and Elect Officers for Year.

Pittsburg, Penn., Sept. 18.—President Ramsey is here to look after the interest of the Wabash railroad in its fight for the right of way along the Allegheny river front.

The Pennsylvania and Wabash have ordinances pending in council granting each the right of way to build elevated tracks along the Duquesne Way.

President Ramsey said he was desirous of securing the concession to gather in some of the freight emanating along the Allegheny river front, also to swing a bridge across the river into Allegheny. He said he did not propose to antagonize the Pennsylvania system, and would be willing to enter into any fair agreement for the payment of one-half of the cost if council refuses each railroad the right to build its own tracks.

Surgeons Elect Officers.

The meeting of the Association of Surgeons of the Pennsylvania Systems came to a close last evening immediately after the election of the officers for the ensuing year and the changing of the name of the association. The new name is the "Surgeons and Physicians of Pennsylvania Lines" and the gentlemen who will serve as offers are:

President—Dr. G. W. Thompson, of Winamac, Ind.

First Vice President—Dr. Montgomery Linville, of New Castle, Pa.

Second Vice President—Dr. C. W. Coulter, of Oil City, Pa.

Secretary and Treasurer—Dr. R. J. Morgan, of Van Wert, Ohio.

The past president and secretary and treasurer are Dr. Stewart L. McCurdy, of Pittsburg, Pa., and Dr. R. I. Morgan, respectively, the latter succeeding himself.

It was decided to hold the next meeting in St. Louis in September, 1904. The meeting yesterday was pronounced by all who attended it to be the best the association ever held.

A Train in Hard Luck.

The Decatur Democrat thus tells of the ill luck attending the trip of a northbound train on the Grand Rapids road: "The northbound train on the G. R. & I., due here at 5:22, was over two hours late last evening, the delay being due to an accident at Ridgeville. The engine broke down there and a freight engine was borrowed for the occasion and word sent to Fort Wayne to have another engine meet the train here. The passenger got here about 7 o'clock and a few moments after No 77, a big yard engine, came puffing slowly in from the north The engine had struck and killed a cow at Hoagland and the blow so disarranged the air pipe of the engine the brake could not be handled and it was necessary to run very slow. It was deemed impracticable to try to pull the passenger train with the disabled 77 and the old freight engine had to proceed with its irksome task."

Dynamo Shipments.

The Fort Wayne Electric works today loaded a car with two 1,200-light generators for shipment to Baltimore, Md., where the company is about to put in a plant in the Kernan's theater. There will be two more generators of the same capacity forwarded to the same place in a few days, thus completing a large order. A motor to Vicksburg, Mich., and a motor to Worcester, Mass., were also among the shipments from the works today.

Testing Room Nearly Completed.

The enlarged testing room for incandescent machines at the Fort Wayne Electric works is practically finished and has been in operation for two or three days. This room is about treble the size of the old testing room, it including the latter and the old engine room. All the service wires have been placed in conduits beneath the floor and there are numerous other improvements over old methods which greatly facilitate the work in the department.

Pittsburg Engine Output.

During the week just closing the Pennsylvania shops turned over eight engines which received general repairs to the road foreman for service and took in for general repairs four engines, viz: Nos. 229, 265, 133 and 7354. Those repaired and turned out were Nos. 7170, 7177, 7236, 7199, 7552, 7877, 7348 and 7275.

Building Dwelling Houses.

Charles Kronmiller of the Pittsburg planing mills, has let the contract for a dwelling house on Force street, which he will occupy with his family when it is completed. Contractor Fred Graff is getting the material on the ground today for the building. Contractor Philip Wyss is also getting the material together for a dwelling house to be erected at Holton and Fisher streets.

Placed Order for Car Wheels.

While in the city this week Motive Power Supt. G. S. McKee of the Mobile and Ohio road, placed an order through Mr. Fisher for 3,000 car wheels at the Bass works. The wheels will be made at the Lenoir branch of the works.

Wabash Engine Output.

The week closing tomorrow has been a busy one at the Wabash shops and the output of engines receiving general repairs just lacked one of being one a day. They were engines 761, 758, 809, 657 and 633. The vacated stalls were immediately taken by other engines needing repairs.

Industrial Notes.

The Nickel Plate pay car is in the city this afternoon.

Louis E. Hushour, a machinist helper, has taken a position in the Pittsburg shops.

F. Rindfoez has taken a position with Foreman Ehinger, at the Wabash shop yards.

Machinist W. C. Habel, of the Pittsburg shops, is off duty on account of the death of his aunt.

Brakeman C. A. Tompkins, of the Nickel Plate, has gone to Bellevue to take a short haul run for awhile.

Brakeman J. S. Habecker, who formerly worked on the Pittsburg, has taken a position on the Nickel Plate.

The C., H. & D. trainmen have been ordered to get their uniforms ready, as they will be worn on and after October 18.

The shops of the Toledo and Ohio Central at Bucyrus, Kenton and Hobson will be lighted by electricity after Nov. 1.

C. A. Eads, Wabash operator at Prairie switch, has been relieved and will be transferred to another station this morning.

G. L. McCoy, special apprentice at the Pennsylvania shops, has resumed his duties there after a visit with his parents in the east.

Machinist Harry Lawler, of Ashley, Ind., is in the city visiting relatives. He formerly worked in the Wabash shops in this city.

The annual meeting of the American Association of General Passenger Agents will be held at New Orleans on the 13th of next month.

C. E. Harpst, fireman on the Pennsylvania lines, has resigned his position to accept one with the National Biscuit company as a salesman.

Mrs. Kretsinger, wife of Foreman J. R. Kretsinger, of the Pittsburg planing mills, is lying quite sick at the family home on Miner street.

Salesmen R. J. Fisher and George T. Ladd were in Richmond, Ind., yesterday in the interest of the Bass Foundry and Machine works.

Engineer F. E. Hiler, of Joliet, Ill., who is employed on the Chicago and Eastern Illinois road, is in the city visiting his father, Contractor J. B. Hiler.

Harry Kensill has taken the position of tonnage clerk with Agent E. H. Kirkland, of the Pittsburg. The young man was a fireman on the road for awhile.

General Supt. A. M. Schoyer, of the Pennsylvania Northwest system, passed through the city on train 24 last night, en route from Chicago to Pittsburg.

Miss Anna Houck, daughter of Patternmaker Adam B. Houck, of the Bass shops, will return from Clear lake this evening. She has been spending a week at that resort.

Rev. A. K. Zartman, of the Grace Reformed church, and the full choir from that house of worship will conduct the services at the afternoon meeting of the Y. M. C. A. next Sunday.

E. H. Stephan, F. C. McElfatrick, C. F. Tielker, C. E. Romey and Henry Galland, Pittsburg shopmen, are off duty, the latter on account of the death of a relative. The others are sick.

As soon as through service is established by the Chicago, Milwaukee and St. Paul via the Kansas City cut-off, it will become an active competitor for passenger business between Chicago and Kansas City.

During the past summer the Grand Trunk road carried on special trains 120,000 passengers, much the largest number ever handled in any three months, and exceeding the travel of the world's fair at Chicago.

I. Bott and E. J. Holman, who were on the sick list, resumed work at the Pittsburg blacksmith shop this morning. Machinist John Nolan, who had been sick two weeks, also resumed work at the Pittsburg shops.

William Fuchs, of the Pittsburg round house, is suffering from the effects of running a pin in one of his hands two weeks ago. The wound was considered a trifling affair at first, but blood poisoning is now threatened.

Yard Conductor William Hayes, of the Pittsburg, reported for work this morning after a vacation of three weeks. Yard Conductor Will Rolfing also reported for work at the Pittsburg yards after an absence of two weeks.

George H. Burgess, assistant to R. Trimble, chief engineer of the Pennsylvania Northwest system, was here yesterday looking over the improvements recently made and those now in progress at the Pennsylvania shops and yards.

Charles Benedict, who went to the Erie shops to work a few weeks ago, has resigned and returned to this city. He will seek employment and remain here. Charlie was clerk at the Pennsylvania erecting shop a number of years.

The Fort Wayne Knitting Mills company has been adding to its factory equipment recently and now has about 120 knitting machines in operation. Five are being installed this week and two more are due from the manufacturer next week.

William Schultz, foreman of the boiler department of the Pennsylvania shops at Wellsville, was in the city yesterday and left last night for Chicago. He is making a tour of the boiler shops of the company to gather information concerning work of that character.

Mr. and Mrs. Michael Hogan, who were married at St. Patrick's church yesterday afternoon, left on Grand Rapids train No. 3 last evening and a large number of their friends were at the depot to give them a fitting farewell. The bride and groom will visit relatives in Grand Rapids a week.

Machinist David Littlejohn, of Saginaw, Mich., is visiting his father, John Littlejohn, the veteran blacksmith of the Electric works. David is employed in the Flint and Pere Marquette shops at Saginaw. He was formerly a resident of this city and learned the machinist's trade at the Wabash shops. Mrs. Littlejohn is with her husband.

The anxiety of the manufacturers, who are great consumers of coal, to lay in a big supply of fuel has created a demand which has cut short the allowance of the railway companies and as a result an insipient famine has set in The railways have the advantage, however, as the law gives them the right to confiscate fuel in transit for their own use and some of the companies are already doing this.

Samuel Rothrock, who has been running an electric light plant at Evansville, Ind., four years for the Fort Wayne Electric company, has been relieved of that work and has taken the road again in the interest of the construction department. With G. L. Smith, Mr. Rothrock will go to Martin's Creek, Pa., in a few days to take up the work of installing one of the largest plants of the season.

August Hone has been appointed general manager of the Louisville and Atlantic road. Hone is a wealthy young man who has chosen railway work because of an infatuation which has always been with him. He took a course in college with a view of fitting himself for the duties of a railway official and later took a practical mechanical course and reached the position of master mechanic of one of the divisions of the Louisville and Nashville road. He is a nephew of August Belmont.

WEDDING AS CLIMAX TO EARLY ROMANCE

Daughter of Senator Fairbanks to Marry Schoolday Lover.

Springfield, Ohio, Sept. 18.—A romantic marriage is scheduled to take place Saturday, Sept. 19, at the home in Washington of Senator Charles W. Fairbanks, of Indiana. The contracting parties will be Ensign John W. Timmons and Miss Adelaide Fairbanks, daughter of the senator. The bride-to-be is the niece of ex-Mayor M. L. Milligan, of this city.

The words from a line in the verse of a Hoosier poet won for the ensign the heart and hand of the senator's daughter. The sentence was:

"When Care has cast her anchor
In the harbor of a dream."

Ensign Timmons had been ordered aboard his ship for a foreign cruise when he wrote those lines. The answer came back from Washington that Miss Fairbanks, dreaming of the old days at Ohio Wesleyan, had accepted the proffer of Ensign Timmons and would become his wife. The invitations were issued only a few days ago.

Years ago Miss Fairbanks and John Wesley Timmons were students together at Ohio Wesleyan. Congressman Grosvenor secured Timmons' appointment to the United States naval academy and the young man left the institution with the rank of ensign. The young officer's love for Miss Adelaide had not cooled, but in the meantime she had married another man. So Timmons apparently put away all thought of ever wedding Miss Fairbanks. But her marriage to Dr. H. R. Allen, sensational in its beginning, ended in sensation. It was never a happy union. It was opposed by Senator Fairbanks and by Mrs. Fairbanks. Last December the social circles of Indianapolis were shocked by the announcement that Mrs. Allen had secured a divorce and that her maiden name had been restored to her.

Shortly after the divorce was granted Miss Fairbanks went to visit at the home of Senator Hanna. There she renewed her acquaintance with Ensign John Wesley Timmons.

The wedding ceremony will be performed by Chaplain Clark, of the navy, a friend of Ensign Timmons. Ensign and Mrs. Timmons will spend their honeymoon in New London, Conn.

CUTS OUT WORK FOR SPECIAL GRAND JURY

Judge Irwin, at Decatur, Says There are Many Violations to be Looked Into.

Decatur, Ind., Sept. 18.—The strongest and most sweeping charge ever given to a grand jury was that given by Judge B. K. Erwin to the special grand jury called to investigate the murder of John Busenbech and the attempt on the life of Editor Fred Rohrer and family at Berne. Both of these offenses were ordered to be rigidly investigated. The court also called attention to the report that intoxicants had been sold on the fair grounds, not only to people of mature years, but also to minors, and that gambling devices were run on the race track.

It was also reported to the court that gambling rooms were tolerated in certain saloons and that minors were allowed to frequent billiard and pool rooms, and that slot machines were operating in the city and county, patronized by boys as well as men. All these matters the court wanted the special grand jury to investigate, and if the evidence warranted it, indictments must be returned against the offenders.

As soon as the tenor of these instructions became known every slot machine in the city disappeared. The city has heretofore been known as a "wide-open town," and it is seemingly the purpose of Judge Erwin to make a general cleaning up. In this the court will meet with hearty co-operation from law-abiding people.

TROUBLE IS BREWING.

Bogota, Colombia, Wednesday, Sept. 16.—The senate has ordered the government to send to the senate the treaty with Chile on the limits recently defined by arbitration of Ecuador. The president of the senate, Senor Caro, former president of Colombia, charges Chile with not having respected her word in refusing to sell to Colombia the cruiser Presidente Pinto, in exchange for Colombia's support at the Pan-American congress held at the City of Mexico in October, 1901.

President Caro's policy, it is asserted, is to attack the Colombian government by all means. His latest blow, in demanding the Chilean treaty, is aimed also at Vice President Reyes, a candidate for the presidency of Colombia, who contributed to drawing up the treaty with Chile, and who, as a commissioner of Colombia at the Pan-American congress, was instrumental in bringing about the understanding with Chile at the City of Mexico. There is still a feeling of resentment in Colombia against Chile for refusing to sell the Presidente Pinto to Colombia during the recent revolution in this republic, in spite of the understanding on the subject arrived at with the Colombia commissioners.

FROST WAS VERY LIGHT.

Reports reach the city today of light frost in a number of localities in the vicinity of Fort Wayne last night, but it is said to have done practically no damage. It was the first appearance of frost this season and was so light that the corn escaped. Grain men say that if the frosts are deferred until October 1 the corn crop will be safe. Should there come a severe blast before that date it will nip a lot of unmatured corn and reduce the crop at least one-third.

TO GO TO INDIAN TERRITORY.

Washington, Sept. 18.—Attorney Charles W. Bonaparte, of Baltimore, who has been appointed to prosecute the investigation into Indian affairs, had a conference with Acting Secretary Ryan, of the interior department, today. Mr. Bonaparte said he expected to visit Indian territory in making his investigation, but did not know when he would go there. He said that he had a tentative policy mapped out, but was not prepared as yet to announce it. He left this afternoon for Baltimore and will return next week.

NEW BANK FOR ANGOLA.

Angola, Ind., Sept. 18.—Preliminary steps have been taken for the organization of a new national bank in this city. Behind the project are Cyrus Cline, J. B. Parsell, L. E. Smith, Clarence Freeman, A. E. Lee and Emmet S. Croxton, all well known business and professional men of means.

Mr. and Mrs. H. W. LeSage Ten Broek will leave tomorrow for their new home in Grand Rapids. Their daughter has been in school there for some weeks.

SAUL'S Credit Clothing House.

Try the Stores That Don't Trust

Look in their windows—price their goods—feel of the weight and examine the quality of their clothing, then do the same to us. See if you don't find that although we cheerfully give you credit—Saul's stock of clothing equals, if not surpasses, that of the cash man.

It's a convenience to be highly appreciated when you can't bring your whole family to Saul's and say, charge it to my account.

Yet We Do It, Gladly

If your wife needs an outfit, she needn't complain about not appearing as well dressed as her neighbor—let her come here. Children and yourself just the same.

All we ask is one-third of the purchase price, then you pay in small weekly or monthly amounts at your own pleasure. You don't pay any interest on the two-thirds balance.

The price and quality of the goods are just the same as if you paid cash, in fact no purchaser can buy any cheaper at Saul's if he should offer cash. We make our money on the discounts obtained on the immense quantities of goods we purchase for the Saul system of retail stores.

Our cash capital is large and as practically every person pays, we can afford to carry a large number of these accounts at a profit.

Don't be diffident—ask us any question. Every account is confidential—no one knows but that every garment you wear is paid for.

Nobby, stylish and up-to-date patterns mark the characters of Saul's clothing.
